ITS Surabaya provides free public access to open spaces and green spaces. ITS campus also has total area of 706329 m2 or 42.2% of the total campus area covered by plant vegetation. Where the plant vegetation at ITS is in the form of open gardens that can be enjoyed by the public, such as Alumni Park, Triangle Park, roundabout parks, departmental parks and garden land managed by several departments, and corridors spread across all campus areas. There are also vertical gardens that exist in several buildings, which utilize plants that hang and are easy to grow in the conditions of Surabaya. However, the current vertical garden area has not been included in the calculation of the plant vegetation area.

Moreover, ITS also has Eco Urban Farming land for organic farming that meets the vegetable needs of the academic community and Buncitan Campus that is currently in the form of open land used for live laboratory agricultural activities from the Department of Biology and the ITS Industrial Argo Center.
