

Allel Selvi Supiah

Malaysia Exchange Student

*Universiti Teknikal Malaysia
Melaka*

I found out about ITS and Indonesia from my senior in UTeM. Here at ITS, I gained a lot of experiences and technical skills since I joined ITS Industrial Engineering. I found the difference between UTeM and ITS in academic environment, they are slightly different. It was also little hard for the language because I faced language barrier during my exchange program.

During my exchange program, it was very amazing to get involved in ITS International Office events. My overall experience is super duper good, I recommend to study at ITS!
