I found out about ITS from one of my lecturers, who is the coordinator at UMPSA. I chose ITS because I want to explore Indonesian culture and its beautiful places. I think, the campus is enormous, and the landscape is absolutely beautiful. It feels like a second home to me, but it's a bit hotter here compared to my hometown. It is quite similar to my home university, but the teaching style is a bit more conventional.

I participated in the Cultural Camp event and loved every moment of it. It was a new experience for me, as I stayed with a foster family for two days, and they were incredibly kind to me. I also had the opportunity to work on a science project at the village school, which was a rewarding experience. The highlight of the camp was visiting Tumpak Sewu Waterfall—it was breathtakingly beautiful, and I truly enjoyed my time there.
