

Melanie Ann Dass Anthony Dass

Malaysia Exchange Student

*Universiti Teknikal Malaysia
Melaka*

I choose ITS specifically because of their renowned reputation around Indonesia. It was surrounded by lush green trees and peaceful lakes, creating a beautiful and calm view. Indonesia is one of the most beautiful countries I have ever visited. It is made up of many stunning islands, with a climate similar to Malaysia, rich culture, and breathtaking landscapes, including beaches, mountains, and volcanoes. The friendly environment and cultural similarities as a Malaysian made it easy to adapt, and I am grateful for the friendships and memories I made along the way.

My overall experience at ITS was truly unforgettable. It was a challenging yet rewarding journey, filled with dynamic learning, supportive classmates, and inspiring lecturers. The Industrial Engineering program pushed me to think critically and apply knowledge in real-world situations, while the vibrant campus life and exciting events, like the ITS GE trip to Mount Bromo and the cultural camp to Jogjakarta, made my time even more special. .
