

# Nagisa Obayashi

**Japan**

**Exchange Student**

*Aichi Prefectural University*

I found ITS in the list of universities that joined UMAP. The reason I joined ITS Exchange Program was its a good opportunity to explore ITS and Indonesia as well. My first impression was very big campus, with trees and flowers. Also, Surabaya is super panas!

ITS is good place to pursue what you want to study because there are many departments and specific courses. About 1 month after I arrived in Surabaya, I often felt lonely, Although that was it, I was keeping to try to do many things to improve myself. And at some point I realized that people didnt care my English that much. The important thing is that what you want to tell, and the effort to do it. So now I know that the language barrier is not that big issue. It was precious and unforgettable. I also met many friends from all over the world. we laugh together, cry together, overcome many challenges together. Thanks to them, my experiences here became so much fun. I would like to say thank you and we will keep contact each other:)
