CHEEKERS Olimpiade Desain Produk Nasional 2026

Nama Lengkap : Aan Wanasaba

Kategori : Footwear Design

Asal Sekolah : SMA Despro Surabaya

Background.

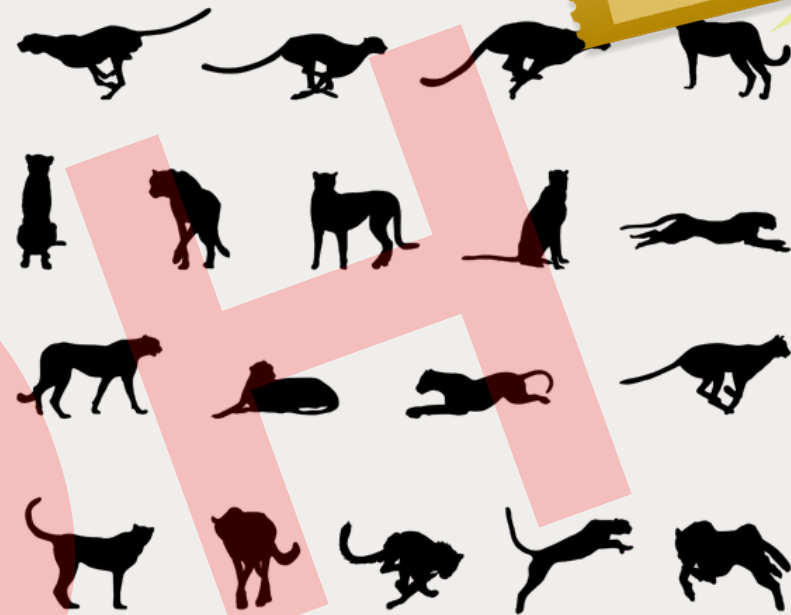

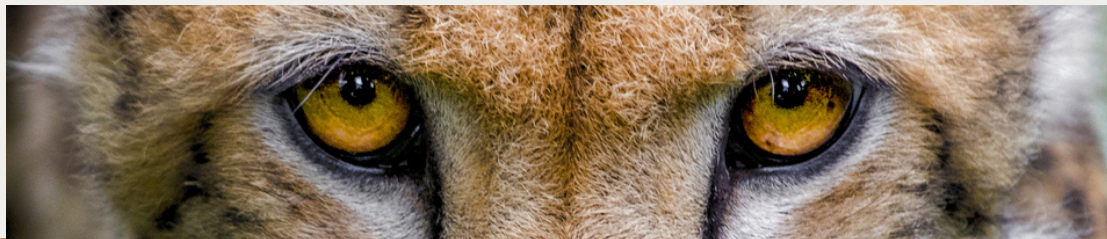

How do I design a shoe that....

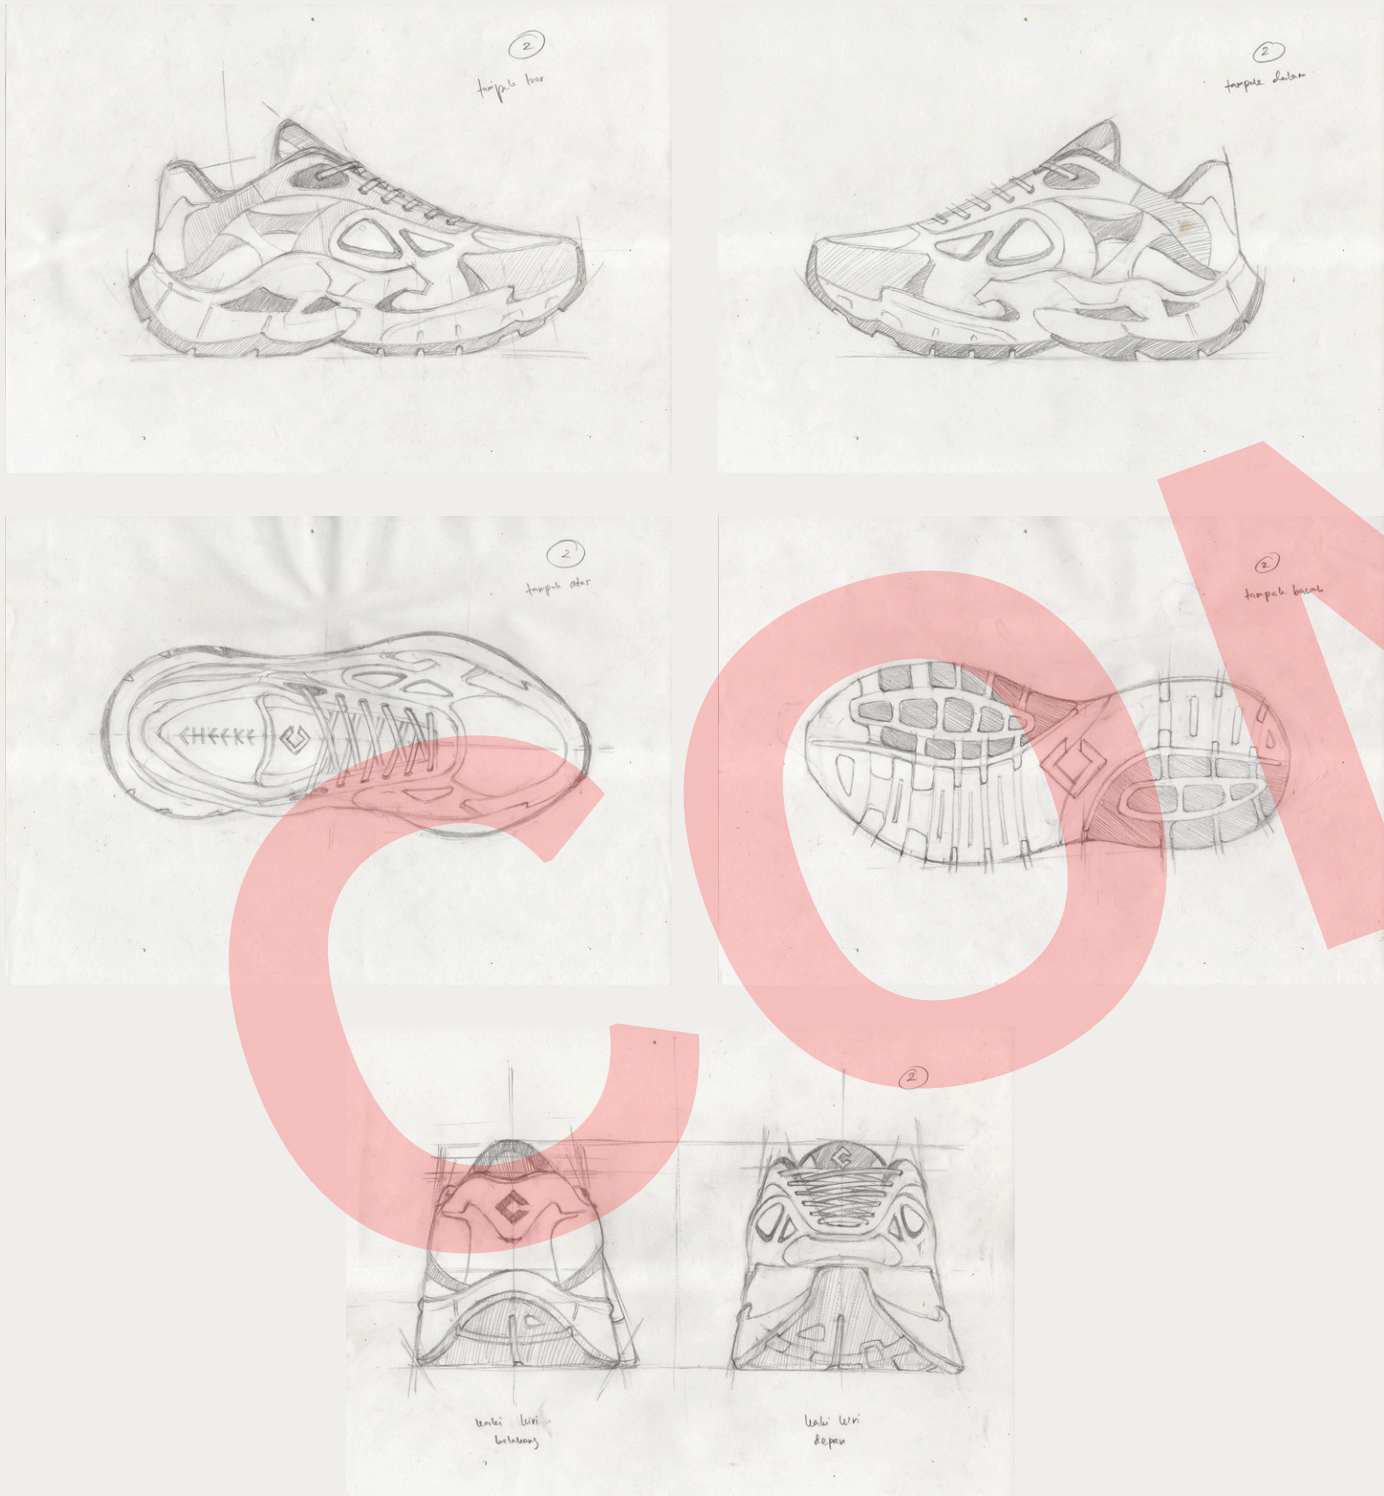

Make a Man Shoes that inspired by the **speed and agility of the cheetah**, translated into a **lightweight and ergonomic design for urban comfort**. Its colourway combines warm earthy tones with bold black accents, while subtle spotted details add character without overwhelming the form—**creating a balanced fusion of performance, style, and modern city lifestyle**.

Moodboard.

Material.

Upper.

The CHEEKERS upper combines suede for a premium feel, sandwich mesh for breathability, and synthetic leather for durability and support.

Inner.

The inner of CHEEKERS features tongue lining and vamp lining for a soft, comfortable feel against the foot, a toe puff for added structure and protection, and tongue foam for enhanced cushioning, ensuring overall comfort and support during use.

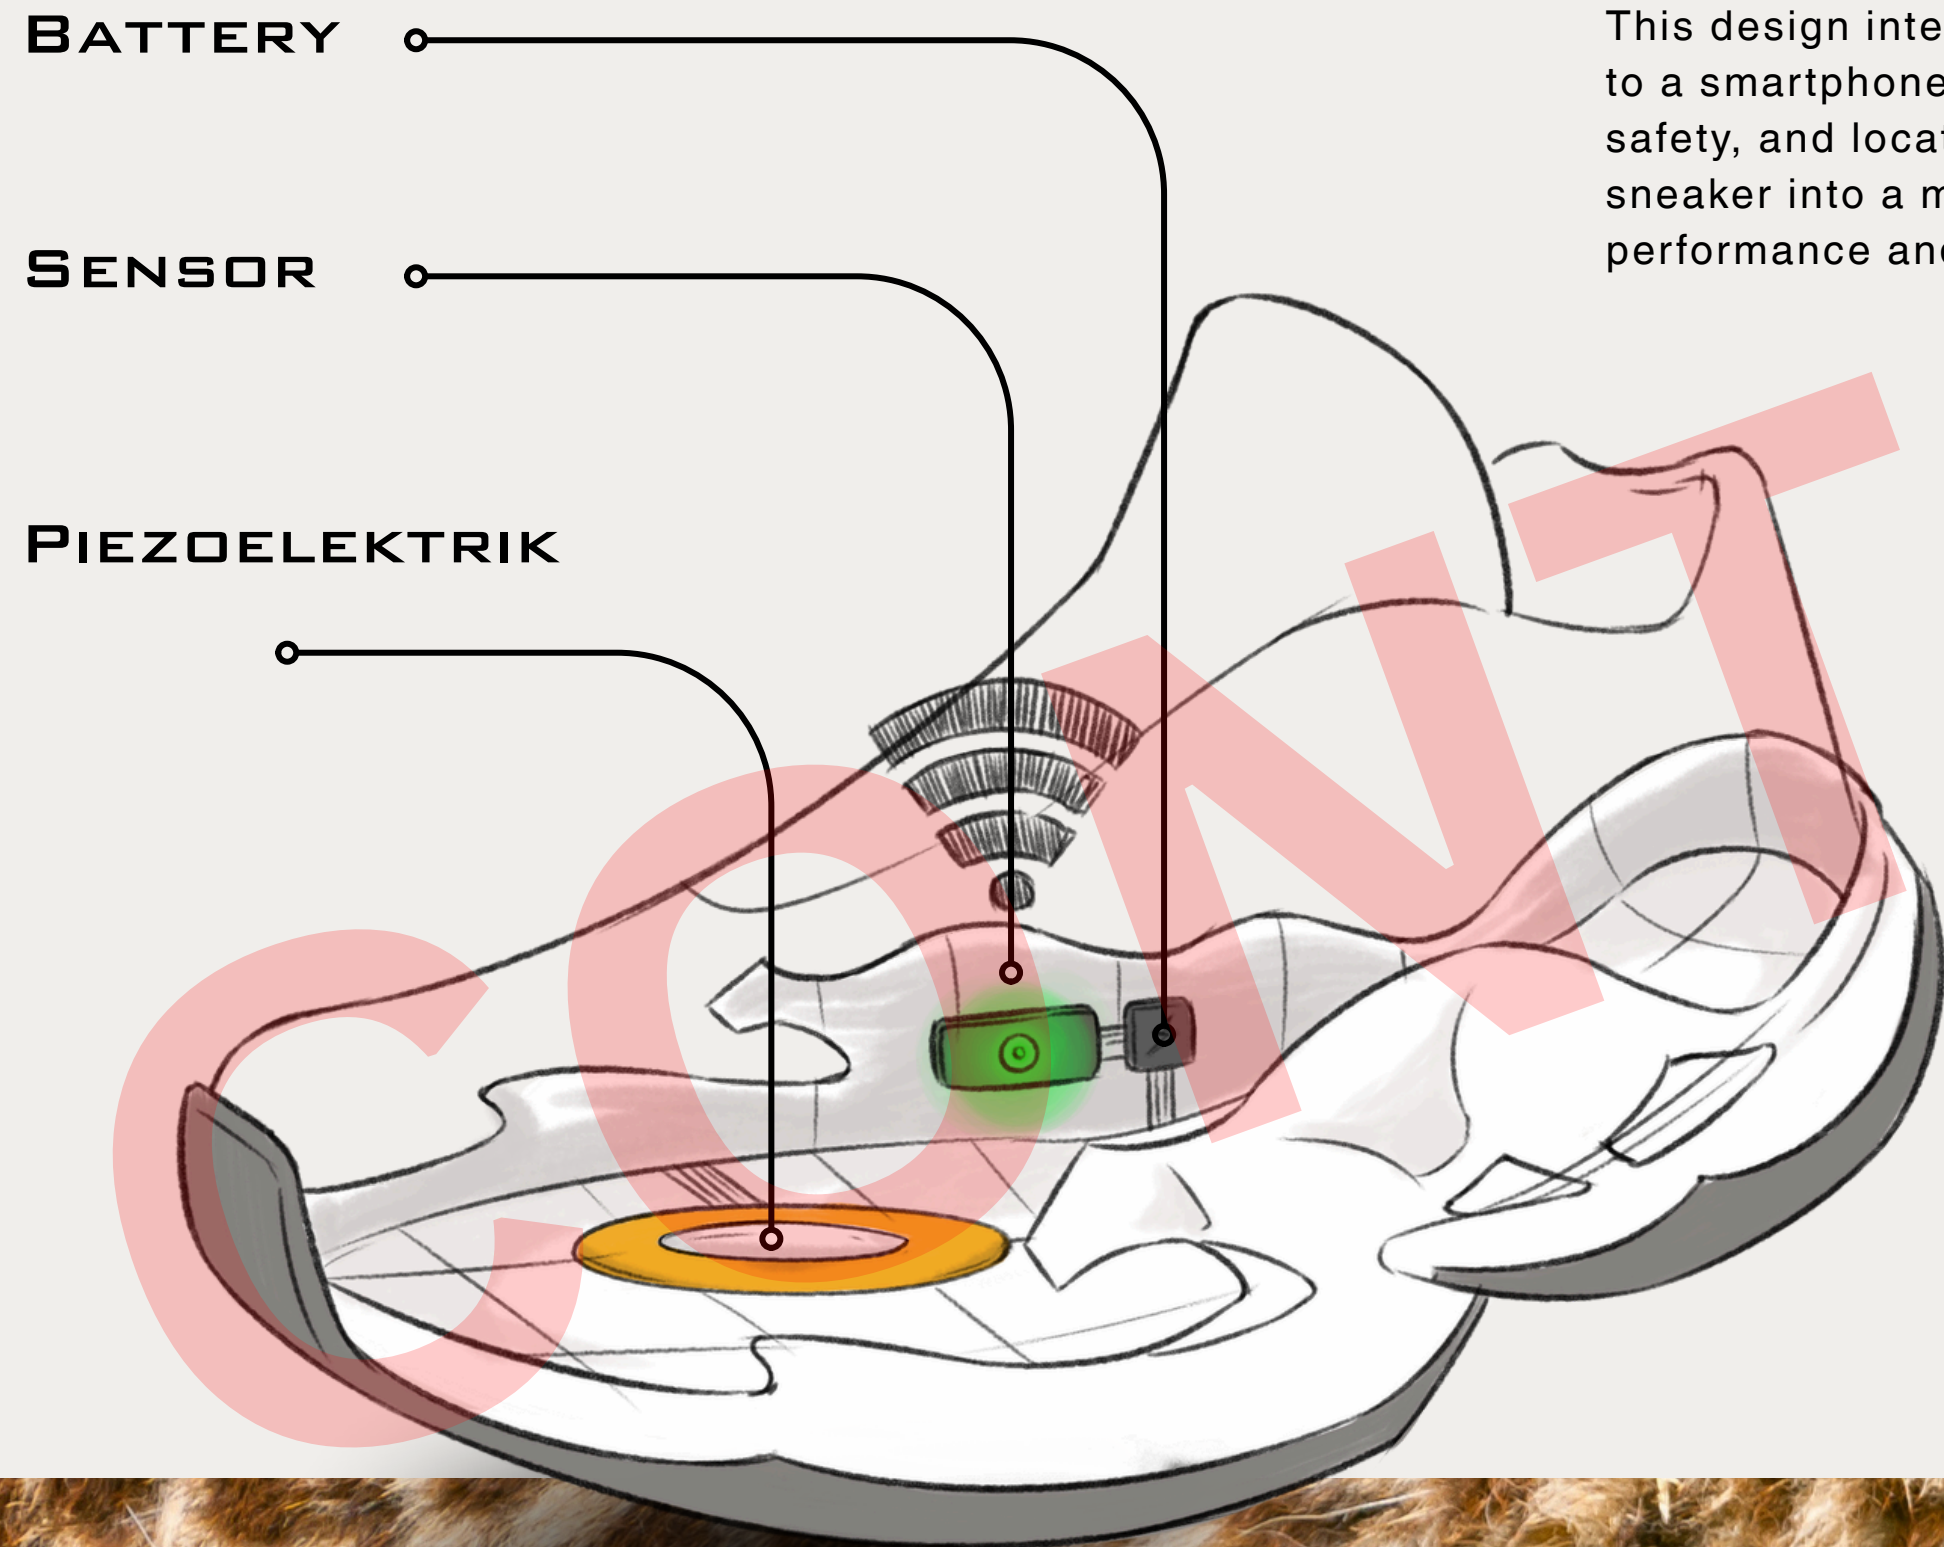

Outsole.

The CHEEKERS outsole uses phylon for lightweight cushioning and flexibility, combined with rubber for enhanced traction, durability, and resistance to abrasion.

Innovation.

This design integrates a smart sensor within the outsole that connects to a smartphone, enabling features such as health monitoring, personal safety, and location tracking for sports activities. It transforms the sneaker into a multifunctional wearable that supports both active performance and secure, connected urban living.

-  Security
-  Health monitor
-  Location Tracking

CHEEKERS

Unleash your primal instinct. Combining raw style with all-day performance, this sneaker delivers a bold, wild aesthetic that moves with you. The classic finish is in the details, defined by signature spotted patterns for a look that sets the pace.
