

International Conference on
Advanced Material Technology

INTERNATIONAL CONFERENCE ON ADVANCED MATERIAL TECHNOLOGY (ICAMT)
in conjunction with
INTERNATIONAL CONFERENCE OF MULTIDICILINARY RESEARCH (ICMR)
(ICAMT-ICMR 2019)

Bogor – Indonesia, October 8-10, 2019

Website: <http://mrs-ina.org/icamt-icmr2019> e-mail: icamt-icmr2019@mrs-ina.org

International Conference of
Multidiciplinary Research

Dear all,

Materials Research Society Indonesia (MRS-INA), is the materials research organization that has been officially a member of International Union of Materials Research Society (IUMRS)

<http://mrs-ina.org/>

The Indonesian Neutron Scattering Society (INSS), is the neutron scattering society in Indonesia that has been officially a member of Asian Oceania neutron Scattering Society (AONSA)

<http://aonsa.org>

Following the successful International conference of Materials Research Society Indonesia (MRS-INA), consecutively MRS-INA C&C 2017 in Yogyakarta, and IUMRS-ICA 2018 in Bali; this year we would like to invite you to our annual International Conference event.

The International Conference on Advanced Materials and Technology (ICAMT 2019) in conjunction with the International Conference on Multidisciplinary Research (ICMR 2019) are to be held in Aston Hotel Convention Centre in Sentul Bogor, on 8-10 October 2019.

<http://mrs-ina.org/icamt-icmr2019/>

The conference will gather the world-class international speakers from all over the world, Through the plenary and keynote lectures, all the current state of the most intensive research now days will be delivered; through the oral and poster presentations from participants there will be interactive discussions with them, This will become the platform for future and fruitful international collaborations.

The articles submitted to the conference, are to be distributed into several category of international publications indexed by Scopus. There are PNMS (scopus, Q1); Ionics (scopus, Q2); Atom Indonesia (scopus, S1); IOP Proceeding (Scopus, Q3). All the selections and review process of articles are to be done by international reviewers.

Traditionally, the conference will also be combined with the cultural visit and joint workshop with the local university, as well as the Banquet. Our plan is to bring the participants, to visit the most heritage Indonesian Palace, and the beautiful scenery of Botanical Garden, traditional dance while enjoying the sunset dinner.

The optional tour will be conducted to visit the "Mountain area-Puncak Pass' with tea plantation, safari garden, and Sundanese culinary, and Souvenir from Bogor area.

On behalf the President of MRS-INA and INSS (Indonesian Neutron Scattering Society), we cordially invite you to join the conference!

Sincerely Yours,

Prof.Dr. Evvy Kartini
President MRS-INA/ President INSS

Prof.Dr. Rudi Harjanto
Chair of ICAMT-ICMR 2019
