

INDONESIA**National Research and Innovation Agency (BRIN)**

The National Research and Innovation Agency (BRIN) contributes to the circular economy and clean, accessible, and secure energy supply themes.

Applicants must first check details on the application process, as well as connections to guidance and policy resources, in the website of the Directorate of Research and Innovation Funding, BRIN: <https://pendanaan-risnov.brin.go.id/>

The Indonesian applicants must meet the RIIM Kolaborasi guidelines.

The proposal must be written in English and then submitted to the Directorate of Research and Innovation Funding at BRIN by email to dana-risnov@brin.go.id (subject email: CFP8-JFS-Topic-Name of PC-Institution of PC) using the provided template

Eligibility

Research proposals must be submitted by Indonesia (based in Indonesia):

- Research institutions (BRIN)
- Universities researcher
- Business entity or community organization in Indonesia

This call will fund collaborations between SEA_EU-JFS and Indonesia-based researchers working on Relevance to the 8th JFS Call 2023

Indonesian applicants must be eligible to apply for funding to support the 8th JFS Call 2023.

- The Project Coordinator (PC) is an Indonesian citizen, a BRIN or non-BRIN researcher (university or other research institution in Indonesia, either from a business entity or a community organization), with a doctoral degree and experience conducting research with international partners.
- A team member could only participate in a maximum of two proposals (one as project coordinator and one as a member, or both as a member);
- The project coordinator and members of the research team have relevant experience and expertise to the proposed research, as evidenced by a track record (portfolio) of research activities.

Funding modalities

The proposal budget submitted must be related to the Keputusan Kepala BRIN No. 2/I/HK/2023 about Standar Biaya Pelaksanaan Anggaran Badan Riset dan Inovasi Nasional Tahun Anggaran 2023 for both the circular economy (including agriculture and food security, not including water-related projects) and the clean, accessible, and secure energy supply fields. The maximum budget is RP 1,000,000,000 per project per year (including researcher mobility and infrastructure sharing). BRIN will support up to 5 applications. Based on the findings of evaluations each year, research funding can be implemented for a maximum of 3 years.

- **Consumables**

- Purchase/procurement of chemicals/consumables such as raw materials or production components

- **Personnel Costs**

- Honorarium for field workers;

- **Travel and Subsistence**

- Domestic travel, directly related to the research activities;

Mobility of Indonesian and foreign researchers and experts

Mobility of Indonesian and foreign researchers and experts refers to the BRIN researcher mobility scheme (post-doctoral and/or visiting researcher).

- The Researcher Mobility Scheme is restricted to BRIN researchers only.
- For Indonesian researchers who will use the Researcher Mobility Scheme, they must engage the BRIN research group.
- <https://manajementalenta.brin.go.id/> provides information on the mobility of Indonesian and foreign researchers and experts.

- **Equipment**

Indonesian grant can not be use for equipment

Submission

- How to Apply

Indonesia Applicants can access information and details on the guidance and policy of implementation for the submission of research funding proposals contained in the RIIM collaboration document by visiting the website <https://pendanaan-risnov.brin.go.id/>.

The proposal must be written in English and submitted to the Directorate of Research and Innovation Funding at BRIN by email to dana-risnov@brin.go.id (subject email: CFP8-JFS-Topic-Name of PC-Institution of PC) using the provided template. All documents must be complete and original. The deadline for submitting a proposal is February 23th, 2024, and team members are not required to submit a proposal. BRIN will conduct the selection at an early stage

After BRIN has approved the proposal, The proposals will be submitted to the JFS Secretariat for assessment and evaluation based on the general evaluation criteria of the JFS. The proposals will be submitted online by the Project Coordinator using a JFS online submission platform based on the results of the JFS Secretariat review. The JFS Call 2023 evaluation system was carried out in accordance with the criteria and provisions in place.

The Indonesian Project Coordinator shall promptly submit a progress report on the status of joint research to BRIN, in accordance to the second term disbursement. After completion of the period of joint research, the Indonesian Project Coordinator shall submit within a month a final report on the results of the joint research to BRIN

Indonesian applicants must follow BRIN policies and rules, consisting of ethical clearance and foreign research permits, material transfer agreements, intellectual property, genetic resources, traditional knowledge, and mandatory disposal, with the following explanation:

- Ethical Clearance and Foreign Research Permit

Researchers and Foreign Parties have to obtain a research permit. To obtain a research permit, Researchers and Foreign Parties must apply for Research Ethical Clearance and foreign research permit request. This application is done through the Research Ethical Clearance information system (<https://klirensetik.brin.go.id/>)

- Material Transfer Agreement

Awardee agree that any tangible research materials required to be taken from the Republic of Indonesia for research purposes of the approved collaborative project shall be transferred through a Material Transfer Agreement (MTA) between concerned research organizations in strict compliance with the legislation of the Republic of Indonesia.

- Intellectual Property

In the event of joint research cooperation, it is the responsibility of the respective member of the collaborating project partners to determine in advance how any exploited IP will be divided amongst the partners in accordance with the prevailing laws and regulations of the respective countries of the institutions Participants and the institutions' policies and procedures. Details of this agreement shall be included in the collaborative agreement.

- Genetic Resources and Traditional Knowledge

1. The Parties recognize the importance of the protection of genetic resources and traditional knowledge associated with genetic resources (hereinafter referred to as the "GRTK"). Awardee to carry out any research activities in accordance with the provisions of International Treaty on Plant Genetic Resources for Food and Agriculture (ITPGRFA) FAO, the Convention on Biological Diversity (CBD) and other international agreements, particularly taking into account the principle of prior informed consent and of fair and equitable benefit sharing.
2. Details regarding the management of GRTK shall be included in the Collaborative Agreement of any collaborative projects.

- Data and material Management

Data and information resulting from the research activities shall be submitted and stored at the Indonesian national repository (Repositori Ilmiah Nasional) through the page <https://rin.brin.go.id/> in accordance with applicable laws and regulations;

Material or specimens resulted from the research activities must be lodged with the BRIN cq. Directorate of Scientific Collection Management.
