Institut Teknologi Sepuluh Nopember Surabaya 2025

ITS Located in Surabaya

- Capital City of East Java
- The second biggest metropolitan, the biggest port city in Indonesia
- The City of Heroes
- The center of economy in Eastern Java and the home of nation's naval base

Established on 10 November 1957 by Ir. Soekarno, the 1st President of Indonesia.

ITS Campus Distributed in 3 Locations

Profile of Directorate of Research & Community Service (DRPM)

DRPM ITS

is the name for the Directorate of Research and Community Service of Institut Teknologi Sepuluh Nopember. In accordance with the Rector Regulation of the Institut Teknologi Sepuluh Nopember Number 24 of 2019 concerning the Organization and Work Procedures of the Institut Teknologi Sepuluh Nopember.

Duties and Functions of DRPM ITS

Duties

- Preparing the formulation and implementation of policies in the subfield of research and community service
- Organizing work programs that are in line with the policies of the sub-field of research and community service
- Evaluating and reporting the performance of work program results in the research and community service sub-sector
- Organizing excellent service in the field of research and community service in accordance with the principles of bureaucratic reform and integrity zones

Functions

- Formulation of planning, governance, and research, publication and community service services
- Organizing research activities and scientific publications
- Coordinating grant funds for research activities and scientific publications
- Organizing community service activities
- Organizing real work lecture activities for students
- Management of the research center
- Management of the study center
- Coordinating grants for community service activities
- Organizing and coordinating activities to improve the culture of research and innovation
- Coordinating administration, treasury, and financial reporting
- Implementation of evaluation and reporting of work programs in the sub-field of research, publication and community service

Manajemen of DRPM ITS

Vision and Mission of ITS

Vision

To become a world-class entrepreneurial university that becomes a pillar of the nation's economic strength through education, research, community service, innovation development and the creation of science and technology innovation products.

Missions

1. Contributing knowledge and technology for the welfare of society through education, research, community service and management activities based on information and communication technology.
2. Play an active role in the development of science and technology, especially in the fields of marine, environment and settlement, energy, and information and communication technology that is environmentally sound through international research activities.

Mission of DRPM ITS

Research Mission

1. Play an active role in the development of science and technology, especially in the fields of marine, environment and settlements, energy, and environmentally sound information and communication technology through international quality research activities.
2. ITS organizes basic research, applied research, development research, and / or industrial research directed at producing innovations that are beneficial to education and national excellence.
3. Research is developed both independently by ITS and through cooperation with institutions, business entities, and / or other organizations both nationally and internationally.
4. Research activities are carried out in the form of monodisciplinary, multidisciplinary, interdisciplinary, or transdisciplinary.
5. Research activities are carried out by complying with academic norms and ethics in accordance with the principles of scientific autonomy that refer to the vision, mission and objectives of ITS, as well as the provisions of laws and regulations.

Mission of the Community Service Division

1. Utilizing all resources owned to participate in solving problems faced by society, industry, central government, and local government by prioritizing information and communication technology facilities.
2. ITS organizes community service in the form of service, empowerment, and / or cooperation with the community in accordance with norms, ethics, and in accordance with its academic competence.
3. Community service is carried out by ITS individually and / or in groups to apply science and technology along with research results in efforts to empower communities, develop industry and regions, advance general intelligence, and educate the nation's life.
4. The results of community service are utilized for the enrichment of learning and research as well as the development of science and technology.
5. Further provisions regarding the implementation and utilization of the results of community service are regulated by the Rector's Regulation.
6. The Community Service Policy is regulated in the Academic Senate Regulation of Institut Teknologi Sepuluh November Number 3 of 2017 concerning Norms and Policies for Community Service at Institut Teknologi Sepuluh November.

Main Study Topics

Sustainable Infrastructure and Environment

1. Climate Change
2. Pollution Control
3. Built Environment
4. Conservation and Protection of Natural Resources
5. Efficient Use of Resources

Energy & Mineral Resources

1. New and Renewable Energy (EBT) for energy diversification, hybrid energy, as well as the provision of energy for rural areas and islands. (Bio energy, hydrokinetics, solar cell organic materials, community wind turbines, ocean waves and currents)
2. Hybrid system and smart grid
3. Energy efficiency and conservation
4. One-click sustainable energy mapping (policy, potential map, technology level, energy economy, energy demand, investment, and EPC)
5. Green and efficient urban transportation and green building

Disaster Mitigation and Climate Change

1. Flood Modeling
2. Tree Mitigation Technology
3. Surabaya Earthquake
4. Extreme Weather and Climate Change
5. Tsunami Simulation
6. Ground movement in the LUSI area
7. Capacity Building
8. Temporary Residential Model
9. Landslide
10. Sea Level Rise

Artificial Intelligence and Digital Technology

1. Autonomous Vehicle
2. Smart Medical Diagnosis
3. Robotics
4. Business and Manufacturing
5. Assistive Technology and Medical Rehabilitation
6. Tele-Health
7. Smart City

Marine - Earth Science & Technology

1. Marine Energy Resources
2. Sea Transportation Safety and Effectiveness
3. Geodynamics
4. Spatial Modeling
5. Ecological and Coastal Area Studies
6. Shipbuilding
7. Ecological and Coastal Area Studies
8. Environmentally Friendly Infrastructure

Appropriate Technology

1. Applied Technology for Biogas Production
2. Applied Technology for Bioethanol Production
3. Applied Technology for Biodiesel Production
4. Applied Technology for Microhydro Energy
5. Applied Technology for Wind Energy
6. Applied Technology for food processing
7. Applied Technology for processing agricultural products

Regional Potential and Community Empowerment

1. Poverty Alleviation
2. Local Government Governance
3. Environmental and Area Management
4. Sustainable Regional Development
5. UKM/IKM (Small and medium enterprises) Development

Advanced Materials and Nano Technology

1. Strategic mineral processing technology made from local raw materials
2. Functional material development technology
3. Technology Exploration of potential new materials
4. Material characterization technology and industrial support

Halal

1. Strengthening of Agro-Industry Made from Halal Local Resources
2. Development of local raw materials as halal food additives
3. Halal traceability information system in the supply chain
4. Shariah peer-to-peer lending Shariah financial technology (Fintech)
5. Halal Marketplace (Halal tourism, Halal education and entertainment, Halal fashion and cosmetic, Halal Property agency, Halal infrastructure development) etc.

Industrial Development & Public Policy

1. UKM/IKM and BUMDES (Small and medium enterprises)
2. Tourism and Creative Industries
3. Entrepreneurship and Start Up Innovation
4. Strategic Manufacturing

Fundamental Science

1. Material
2. Health and Medicine
3. Fuel and Energy
4. Food and Agriculture
5. Information and Communication Technology
6. Maritime
7. Theory Development, Safety and Risk

Defense Technology

1. Mobility support technology
2. Combat power support technology
3. Defense technology support
