Mitra Kerjasama Luar Negeri Prioritas Skema Penelitian Kemitraan

***Enhancing Quality Education for International University
Impacts and Recognition – World Class University
(EQUITY-WCU)***

Kemitraan IRN Tipe A & B

Direktorat Riset dan Pengabdian
kepada Masyarakat Institut Teknologi
Sepuluh Nopember
Surabaya 2025

A. Hasil International Research Network QS-WUR 2026

International Research Network (IRN) adalah salah satu dari sembilan indikator yang digunakan dalam penilaian QS World University Rankings (QS WUR) 2026. Indikator ini memiliki bobot 5% dalam penilaian keseluruhan dan mengukur kemampuan institusi untuk membentuk dan mempertahankan jaringan kolaborasi penelitian internasional.

International Research Network (IRN) dihitung menggunakan *Margalef Index*. Margalef Index adalah indeks keanekaragaman yang digunakan untuk mengukur keragaman kemitraan penelitian internasional suatu universitas sesuai rumus berikut :

$$IRN = \frac{L(Negara)}{L_n P(Mitra PT)}$$

Dalam QS World University Rankings (QS WUR) 2026, suatu universitas dianggap memiliki *International Research Network* (IRN) atau jaringan riset internasional dengan suatu negara jika ada minimal **3 publikasi bersama dalam 5 tahun terakhir dengan mitra dari negara tersebut**.

Jika sebuah universitas bekerja sama dengan satu universitas saja dalam suatu negara, meskipun ada lebih dari 3 publikasi, negara tersebut tidak akan masuk dalam perhitungan IRN. Untuk meningkatkan skor *International Research Network* (IRN), kolaborasi harus melibatkan **lebih dari satu institusi dalam suatu negara**.

International Research Network (IRN) ⓘ

QS World University Rankings
International Research Network (IRN) Score
