

# Erasmus at ITS, Indonesia

Institut Teknologi Sepuluh Nopember (ITS) Surabaya, Indonesia

## About ITS

## Previous Project

- Erasmus Mundus Action 2 - Interweave
- Erasmus Mundus Action 2 - IMPAKT

## Current Project

- Erasmus+ Capacity Building Strategic IP Management for Effective R&I in Asian Higher Education-SMART with Universiti Teknologi Malaysia
- Erasmus+ Capacity Building Tuning Asia-South East (TA-SE) with University of Deusto, Spain

### Erasmus+ Mobility with:

- Anadolu University, Turkey
- Aristotle University of Thessaloniki, Greece
- Bialystok University of Technology, Poland
- Cardiff University of Metropolitan, UK
- Sapienza University of Rome, Italy
- University of Szczecin, Poland
- Warsaw University of Technology, Poland
- Radboud University, The Netherlands
- Istanbul Aydin University, Turkey

Being one of the best universities in Indonesia, the vision of Institut Teknologi Sepuluh Nopember (ITS) is to be an innovative research university with international recognition. ITS is prominent to provide excellent scientific activities, pleasant green environment, very friendly atmosphere, and enormous community spirit.

Working together with national and local government, industries, NGOs, community, and all stakeholders including alumni, ITS carries out strategic programs such as integrated internationalization programs, lab-based education, science and technopark (STP), eco-campus, comprehensive research and community outreach.

In the spirit of its vision to be a world class research university, ITS eagerly initiates and maintains cooperation with foreign universities and research institutions all over the world to enhance its excellence in research and education of science and technology. ITS has been cooperating with institutions in European Union and third countries within the Erasmus Projects consortiums and is looking forward to establishing more collaborations.

## Previous Activities

### Erasmus Interweave Action 2

- Cohort 1: Full degree, staff mobility, student mobility
- Cohort 2: Staff mobility

### Erasmus IMPAKT Action 2

- Cohort 1: Staff mobility, student mobility, teaching mobility
- Cohort 2: Staff mobility, student mobility

## Current Activities

### Erasmus+ Mobility with:

- Anadolu University, Turkey
- Aristotle University of Thessaloniki, Greece
- Bialystok University of Technology, Poland
- Cardiff University of Metropolitan, UK
- Sapienza University of Rome, Italy
- University of Szczecin, Poland
- Warsaw University of Technology, Poland
- Radboud University, The Netherlands
- Istanbul Aydin University, Turkey

# What do they say about Erasmus at ITS?

**Prof. Gianfranco Risuleo**

ACADEMIC STAFF OF SAPIENZA UNIVERSITY OF ROME, ITALY

**Erasmus IMPAKT Awardee**  
at ITS Surabaya, Indonesia

The experience I got was indeed highly positive and the relationship with academic personnel of the Departments of Biology and Chemistry was definitely fruitful. We are now writing a review article on natural substances which is a field of common interest. During the lectures (for both master and doctoral levels), I was also pleased to experience that students are well trained and updated to many novel subjects of molecular biology and biotechnology. As a consequence of this first interaction, I was recently invited to deliver a speech as a keynote speaker at the 3<sup>rd</sup> International Biology Conference (IBOC). One final observation: the proverbial Indonesian hospitality and generosity enriched very much my stay at ITS. I am also convinced that my university as well as ITS will benefit from future initiatives contemplating exchange of academic personnel and students. The final impression is ITS is a quite active structure that deserves the highest consideration in future interactions with foreign universities and research institutions.

**Yashinta Nurrahma**

NON-ACADEMIC STAFF OF ITS

**Erasmus IMPAKT Awardee**  
at Cardiff Metropolitan University, UK

It was a very valuable experience for me. I learned many things related to university's collaborations, promotion and marketing. I also had a chance to meet key persons in IRO and arranged daily meetings with them. I observed that the university tends to maintain their products quality to satisfy the customers needs. In this case, the customers are the students. The products cover all related aspects of university such as the quality of the academic and non academic services. I felt overwhelmed with the precious knowledge I obtained and would like to implement it to ITS.

**Andre Filipe Soares Fernandes**

NON-ACADEMIC STAFF OF UNIVERSIDADE DO PORTO, PORTUGAL

**Erasmus Interweave Awardee**  
at ITS Surabaya, Indonesia

It was a perfect match. In between, I had the opportunity to immerse myself in Surabaya's and Java's cultural and touristic scene; enjoy ITS green campus; hike Bromo volcano; taste local foods; observe traditional activities and architecture; and visit *Kampung* (urban villages). A special thanks to the International Office's staffs and volunteers and to my BIBV colleagues. To all of them: *Matur nuwun* (thank you)!

**Ivan Vila Media**

STUDENT OF UNIVERSITY OF LAS PALAS-DE GRAN CANARIA, SPAIN

**Erasmus IMPAKT Awardee**  
at ITS Surabaya, Indonesia

The lecturers have been very nice with me, and are willing to help me without hesitation. My classmates and all the Indonesian people in general are very warm and nice with foreigners, so I have been feeling very good since the first moment and it's easy to make new friends here. In a matter of hospitality provided by ITS International Office, the people working there have always been very good and welcoming, and all of them are doing an incredible work. In summary, I am having an amazing experience here that can only be lived once in the life, trying to mix my studies with trips around Indonesia to discover this beautiful country.

**Dewie Saktia Ardiantono**

STUDENT OF INDUSTRIAL ENGINEERING AT ITS

**Erasmus IMPAKT Awardee**  
at Sapienza University of Rome, Italy

Being a part of prestigious scholarship like Erasmus+ was the greatest moment in my life. It gave me valuable experiences both in knowledge development about transport systems and communication skills to interact with various kinds of people easily. During my stay in Italy, I spent my time traveling; whether it was around the cities with their beautiful territories, filled with natural as well as historical resources, and rich cultural heritage or other countries in Europe. I highly recommend college students to experience the same, since all of us indeed have the same opportunity.

**Natsir Hidayat**

STUDENT OF ENGINEERING PHYSICS AT ITS

**Erasmus Interweave Awardee**  
at Aristotle University of Thessaloniki, Greece

When I was a child, I dreamed about going abroad and living in somewhere outside Indonesia. In 2014 Erasmus realized it. There are a lot of things I could learn such as European culture especially the Greece customs and foreign languages. What I really like about living in Greece is that I felt like I lived inside a museum with ancient things around the city, there are no borders if you want to travel around European Union. I really recommend students wherever you are to try any precious opportunity, particularly to study overseas. I believe that the exposure during living and studying in different neighborhood will definitely change your life.

## Benefit

- Facilities as ITS Students: free bike rental, medical center, sport center, etc
- Accommodation booking service
- International student event (Adventurous Trip, Short Film Festival, City Tour, Campus Tour)
