Design Competition 2018
USA

Testimonials of Scholarship Grantees

Maurice Ntahobari

Rwanda – KNB Scholarship Grantee 2015

During my stay in ITS, life was really very nice and interesting. ITS is a lovely educational institution where I met with many students from different countries. Due to this, I learnt various culture and experienced different good behavior. I also got the technical skills and knowledge as joined informatics department. Again, I enjoyed the way the lecturers interact with the students which is certainly helpful and makes easier for international students to better study and do researches. Finally, the international office care much about the students to smoothly realize their studies.

Mohammed Hatem Ali Al-Hooti

Yemen – KNB Scholarship Grantee 2014

Being admitted by ITS is like paying for an exclusive world tour. This campus is comprised of different people from different nationalities which makes it a global community for varied learning. I have got a wonderful experience. My skills are developed, I have built my confidence. I am not able to express all of my appreciations which I have for the generosity. KNB scholarship that I have been awarded brought me a step closer to living out my dreams. I grew up in an environment where every minute is to be appreciated and valued. I consider myself blessed to be exposed to many experiences that have helped to shape me as a person.
