Brief Explanation

KNB (Kemitraan Negara Berkembang / Developing Countries Partnership) Scholarship is provided by Indonesia's government opens an opportunity to experience life in the most culturally diverse nation in the world while studying and earning a Master Degree. KNB Scholarship is offered to potential students from developing countries all around the world to earn their Master Degree at one of 16 prominent universities in Indonesia. Since 2009, KNB Scholarship has been awarded to 992 students coming from 71 developing countries and among those, 62 students graduated from ITS.

As one of top technological institutes in Indonesia, we invite students from developing countries all around the world to enroll in our **Full Degree of Master program through KNB Scholarship**. Leading in innovation, research, and eminent collaboration, ITS provides conducive environment for students to study and enrich the academic and non-academic aspect. Supported by 1000 academic staffs, 1000 non-academic staffs, and 180 hectares of total area, ITS prioritizes the worthwhile and sophisticated invention for the better future.

Testimonies

Maurice Ntahobari
Rwanda - KNB Scholarship Grantee

During my stay at ITS, life was really nice and interesting. ITS is a lovely educational Institution where I met many students from different countries. Due to this, I learnt various culture and experienced different good behavior. I also got the technical skills and knowledge as I joined Informatics Department. Again, I enjoyed the way the lecturers interact with the students which is certainly helpful and makes easier for international students to better study and do researches. Finally, the international office care much about the students to smoothly realize their studies.

Kristina Peneva
Bulgaria - KNB Scholarship Grantee

Since my adolescence, I have both recognized the value of and benefited from intercultural programs. In 2014 I started my bachelor's degree at the ITS in Surabaya as a recipient of KNB scholarship. I had the opportunity not only to completely engross myself in the local culture, history, and language, but also I was introduced to the Indonesian traditional and modern architecture. After graduating in 2018, I can confidently say that I gained valuable theoretical and practical understandings during my study, which are of benefit to both my personal and professional development.

Mohammed Hatem Ali Al-Hooti
Yemen - KNB Scholarship Grantee

Being admitted by ITS is like paying for an exclusive world tour. This campus is comprised of different people from different nationalities which makes it a global community for a varied learning. I've got a wonderful experience. My skills are developed, I have built my confidence. I am not able to express my all of my appreciations which I have for the generosity, KNB Scholarship that I have been awarded brought me a step closer to living out my dreams. I grew up in an environment where every minutes is to be appreciated and valued. I consider myself blessed to be exposed to many experiences that have helped to shape me as a person.
