INTERNATIONAL EXPOSURE OPPORTUNITIES

FOR IUP STUDENTS AT ITS / 2021

Preface

by Prof. Ashari, Rector of ITS

I am delighted to introduce you to the International Exposure Opportunities Booklet for International Undergraduate Program (IUP) 2021. As a university that embarks a journey to become a world-class university, Institut Teknologi Sepuluh Nopember (ITS) is well aware of the need to prepare our students through proper scientific explorations. We also aspire to produce nation's future leaders who can later enhance lives and society for Indonesia and beyond. To prepare the graduates who are ready to play an immense role in the global market, we provide our students with limitless possibilities of international exposures through various programs. ITS has forged partnerships with top global universities & educational institutions which enable the students to treasure the opportunity to participate in the student exchange, joint degree, short program, and lab internship program abroad. By pursuing academic excellence through diversity and internationalization, the overseas program will expose the students to deep and nuanced possibilities and environments that hopefully help them in becoming professionals who can contribute globally to their fields and society as a whole.

Year 2019-2020 marked some outstanding milestones of ITS Surabaya. The university continued to grow in scale as we launched the establishment of 20 International Undergraduate Programs for both Indonesian and non-Indonesian students. We initiated brand collaborations and partnerships to build up our international education and research. This leads to 1.075 international mobility programs that we have made possible per 2019 with 71 % of the total amount going to the outbound mobility which facilitated our students, lecturers, and staff to go abroad and join academic, professional development, or training programs.

On top of our breakthroughs, ITS cements its place on the top three universities in Indonesia based on the world university ranking from Times Higher Education (THE). ITS has been demonstrating significant trends in the QS (Quacquarelli Symonds) global university ranking by progressing to position 751-800 and 164 in the QS Asia Ranking. The continuous increase of global recognition means more doors opened for our community to explore. Written in the book is the list of our dear partners that will help you in obtaining international exposures and global competencies. I am hopeful that this book will help you to find the most-fit opportunity that can better equip you in the global world.

How to Use This Book

These colored circles represent the faculty that could participate in the program

The name of the university

Description about the university

Type of the program

Details of the program

The information about the living cost is an approximate guide only and does not take into account personal budgets and spending habits.

Important notes

CHONNAM NATIONAL UNIVERSITY

South Korea

Since its foundation in 1952, CNU has been the proud center for the region's globalization efforts. Now, CNU is a home to some 1,400 international students from every corner of the world, and it sends and receives more than 1,200 students every year through partnerships with some 450 universities in 57 different countries.CNU also has outstanding Korean language programs operated by its Language Education Center, teaching the Korean language to some 1,300 students annually. CNU also has several CNU Centers and CNU Korean Programs overseas in China and Vietnam. It also recently opened its first satellite office in the State of New Jersey in the U.S.

Course Offered
http://international.jnu.ac.kr/eng/indexSub.action?codyMenuSeq=1936&site std=international&menuUIType=sub

Program: Student Exchange

Academic Period	Minimum GPA
1st Semester/Fall : End August-December	-
2nd Semester/Spring : End February-June	

Quota	Minimum TOEFL
2-4 students each semester	477 (TOEFL/EFL)

Living Cost*	Minimum IELTS
$714-1,196 USD/Month	5.5 overall (IBT)

Deadline
1st Semester/Fall : Mid of April
2nd Semester/Spring : Mid of October

*Living expenses reference:

Table of Contents

What to Do

STUDENT

PRE

a. **Attend the IEP workshop**
Starting from the 1st Semester, students and parents are requested to attend the Information for Parents (IEP) Information for Parents. Throughout the workshop, they are presented with information about the IEP – its schemes, procedures, requirements, and university partners. The workshop provides international exposure opportunities that the students and the parents can discuss further with the ITS Global Engagement and IEP supervisors.

b. **Attend Internationalization at Home Program**
During the first – fourth semester, students are requested to attend FS2 (From Student For Student), GCW (Global Competences Workshop), GLS (Guest Lecture Series), GLP (Global Learning Program), Student Session and Let's Study Abroad session. Throughout these workshops, they are exposed to detailed information about IEP, which covers the tips and tricks, experiences during IEP, and much other beneficial information. The workshops provide students with various information from experts and senior students who have experienced the IEP.

c. **Obtain a language proficiency certificate**
To be eligible for IEP, students need to have a valid IELTS or TOEFL IBT or TOEFL ITP or TEFL/EFL ITS certificate. It is their responsibility to obtain the certificate before the deadline of application. Students also need to note that each university has different requirements in terms of the minimum score or the type of language proficiency certificate.

d. **Submit the required documents**
At the end of the third semester, students are requested to prepare all requirements required by the host university and can send the submission in the early of the fourth semester for the program that will start in the fifth semester.

e. **Participate in the internal selection process**
For all students who apply to the ITS Global Engagement selection process, students who completed all of the requirements will be invited to attend the interview/selection process, which consists of ITS Global Engagement management. Upon assessing each student's documents and interview results, the committee finalizes the placement process. The results are sent to students and partner universities.

STUDENT

DURING

a. **Apply to the host university**

t is the students' responsibility to complete their application at partner universities. Please note that procedures and deadlines differ from one university to another. Students should consult with the ITS Global Engagement on the application process and with their assigned department supervisor on the course selection. Students are responsible to always have communication with the department if there is any course change.

b. **Make transportation and accommodation arrangements**

It is advisable that students finalize their transportation and accommodation arrangements right after their visa is issued. The IEP coordinator will put the students in touch with staff members at the host university's International Office and/or student buddy

c. **Apply for visa**

Upon getting a letter of acceptance (LoA) from the host university, students may start applying for their visa. Students need to comply with all visa regulations. It is the students' responsibility to make sure they get the right type of visa promptly.

POST

a. **Credits Transfer**

Upon finishing the IEP, students submit a copy of the official certificate/transcripts to the respected department along with a signed Learning Agreement.

What to Do

PARENTS

PRE

a. **Attend the IEP workshop**
    At the beginning of the 1st semester, parents are requested to attend the IEP workshop, which is Information for Parents. Throughout the workshop, they are exposed to information about the IEP – its schemes, procedures, requirements, and university partners. The workshop provides international exposure opportunities that the students and the parents can discuss further with the ITS Global Engagement and IEP supervisors.

b. **Providing guidance**
    Parents must provide guidance for the students in choosing the most-fit IEP that also suits their financial competence.

DURING

a. **Providing support**
    It is hoped that parents can give continuous moral and financial support to students during the IEP.

POST

a. Parents are required to remind the students to finish the credit transfer process upon arrival from the IEP.

DEPARTMENT

PRE

a. **Guidance**
Supervisors provide guidance to discuss the compatibility of the desired IEP and the students' subjects or majors.

b. **Providing required documents**
Each department helps to provide a recommendation letter needed by the students.

c. **Signing the Learning Agreement (LA)**
Departments processed the Learning Agreement proposed by the students for the credit transfer process. The departments are also responsible for the approval and the equivalency process between the students' courses and the IEP.

DURING

a. Assisting the students in the arrangement process of SPP Rp 0

POST

a. **Validating the Learning Agreement**
Departments must check and validate the LA, certificate, or official academic transcript obtained by the students after the IEP.

General Requirements

1 . **Official Academic Transcript in English Version (Transkrip Akademik dalam Bahasa Inggris)**
Please download your Academic Transcript from your integra. Click on "transkrip sementara" and download it. (The document already consists of e-signature and official stamp).

2. **Certificate of Enrollment (Surat Keterangan Mahasiswa Aktif ITS dalam bahasa Inggris)**
This document aims to prove that you are currently an active student at ITS. You can get this letter from your integra. Select "Surat Mahasiswa" and then choose "Surat Keterangan Mahasiswa Aktif". To apply for a study abroad program, you may choose "lain-lain/etc" in the "keperluan" column. Please complete the necessary column with the name of the program that you are applying to. (Due to study from home regulation, the letter is already signed with QR code, so you do NOT have to go to BAAK to get a signature).

3. **Certificate of English Proficiency (Sertifikasi Kemampuan Bahasa Inggris)**
You can use TOEFL/IELTS depending on the requirements of the program. For exchange programs under ITS' partnership with Erasmus, you should submit at least TOEFL ITP. For a regular exchange program, you may use EFL (from CLC ITS/UPT Bahasa dan Budaya ITS). Please make sure that your TOEFL/IELTS/EFL is still valid (TOEFL test will only be valid for two years after the test date).

4. **Passport (Paspor)**
Please make sure that you submit your passport to join a study abroad program. Please make sure that your passport is still valid for at least 1 more year. ITS Global Engagement office will not process your documents if you do not submit your passport. It is advisable to prepare these documents early.

5. **Statement Letter (Surat Pernyataan)**
This letter is to confirm that you have already understood the terms and conditions of the program and will comply with the rules. Please download the file in this link: https://intip.in/PernyataanShortStudentExchangeProgram [Surat Pernyataan Short or Student Exchange Program]

In several programs, students also need to provide a statement letter from their parents/guardians. The letter consists of a pledge from the parents/guardians that they financially support the students to join the program.

6. **Recommendation Letter in English Version (Surat Rekomendasi dalam Bahasa Inggris)***
Mostly, there is no specific format for the recommendation letter. However, please note if there is a specific format for the recommendation letter required by the university that you are applying. It will be better if you can get a recommendation from someone of high position.

7. Special Requirement

Student Exchange: Learning Agreement
You must use this form to confirm the courses that you will take for the student exchange program. Please download the form at the following link: https://intip.in/learningagreement [file learning agreement]

To fill the form, please check the information below:

1. Home university means ITS. Host University means the proposed university.

2. Please fill in the courses that you would like to take at the host university (that you would like to transfer and other additional courses such as language, presentation, or other general courses).

3. Please fill the courses that can be transferred to the Home University. **Please make sure that you have already discussed it with your Head of Department & LO International at your department regarding the course that can be transferred to your department.** Please note that the students need to take & transfer a minimum 10-12 SKS.

4. For the signature at the 'Home University' section, please fill in the name of your Head of Department at the 'Dept. Coordinator' section and please fill the name of Senior Manager of ITS Global Engagement on Promotion & Mobility (Octaviyanti Dwi Wahyurini, S.T., M.AppDesArt, Ph.D.) at the 'Institutional Coordinator' section.

5. Please leave the Institutional Coordinator field blank when you submit your application to ITS GE. Dr. Octaviyanti will sign your learning agreement after finishing all the internal selection process.

Internship/Final Project: Work Plan/Study Plan
You should submit the work plan in 500 – 1000 words (depending on the requirement of the program you have chosen). Please mention what you want to do during your internship.

Short Program/Winter or Summer Program: Motivation Letter
You should submit your motivation letter in 500 – 1000 words (depending on the requirement of the program you have chosen). Please elaborate on the reason why you apply for the program and what impact you would make if you were accepted as one of the participants.

Terms and Conditions

1
All IUP students have the same rights to information and guidance regarding the IEP.

2
ITS cannot guarantee that students are approved in the IEP. There is a possibility of program cancellation from the university partners.

3
Students are fully responsible for the visa processing, registration at the partner universities, and email/mobile communication with partner universities.

4
The slow response of the students in the preparation process prior to the departure may lead to cancellations from the partner. This condition is beyond ITS responsibility.

5
Students who are found to have falsified documents will be disqualified / their nominations were withdrawn.
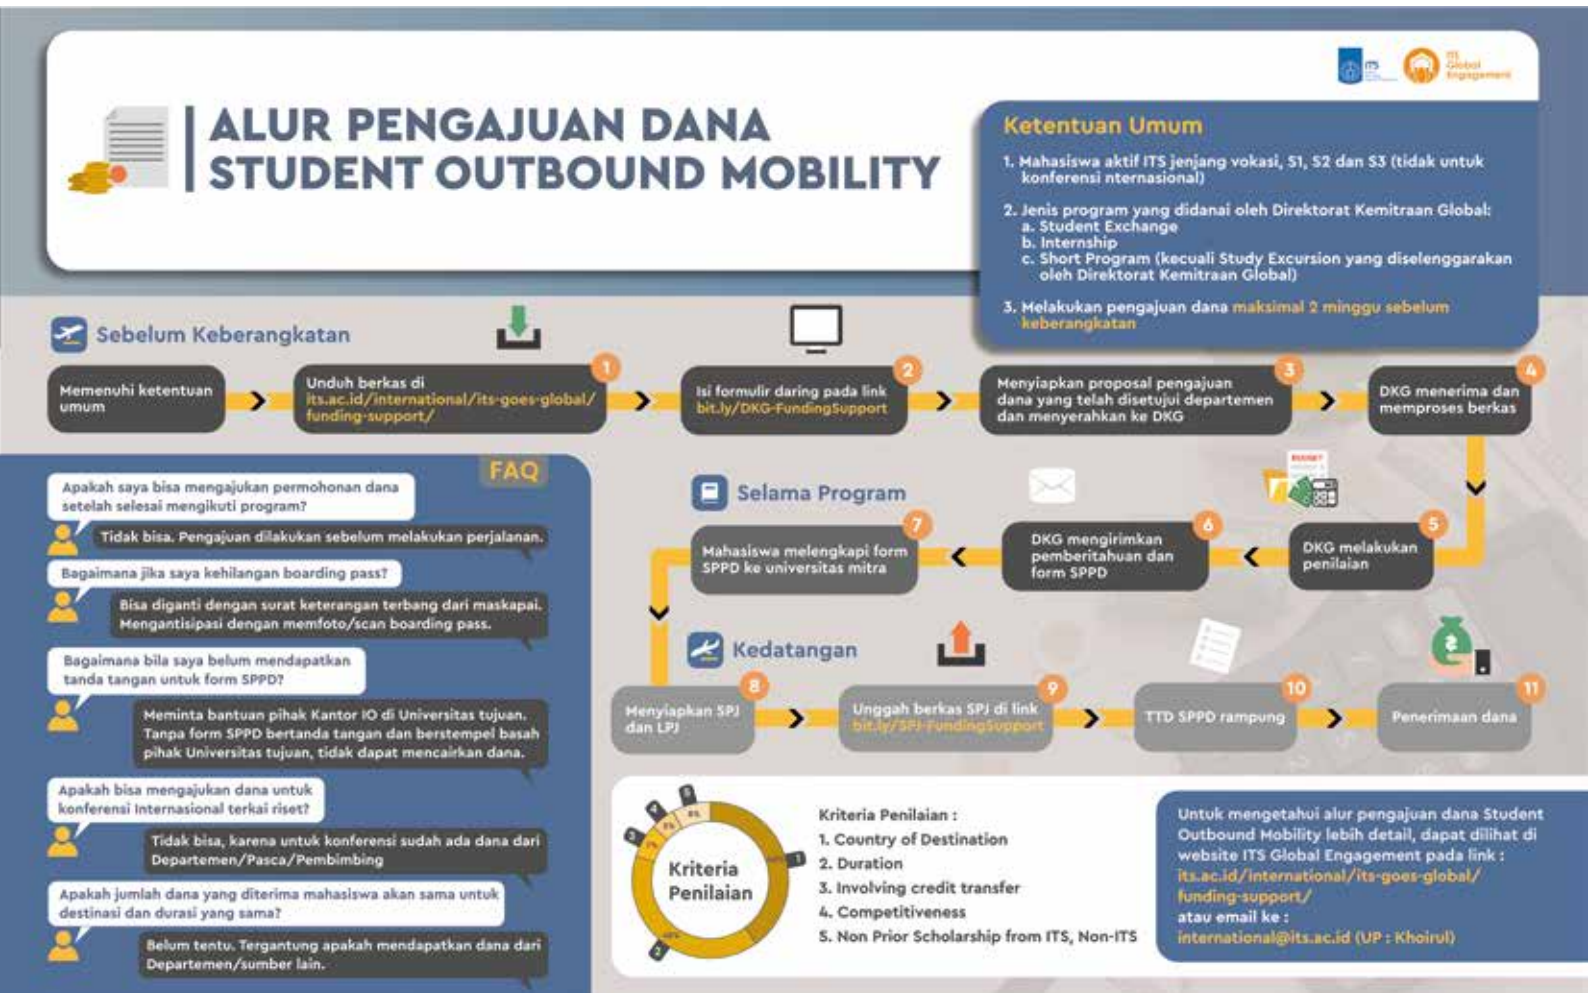

6
All IUP students have to actively seek any information about the IEP opportunity which is provided in ITS GE social media/website. ITS GE is not responsible for the IUP students who have not gotten any IEP until the end of their study at ITS.

Funding Request Assistance

ITS Global Engagement provides fund support for ITS active students to participace in international mobility. **Please kindly note that this fund is not applicable for Online Mobility Program.**

GENERAL REQUIREMENTS

1. Active Bachelor and Master's students

2. Applying for:
   1. Student Exchange
   2. Internship
   3. Short Program (If you apply for ITS GE Study Excursion, you cannot apply for this fund)

PROCEDURES

1. Submit the documents one month to two weeks prior to the program. Failing to submit by the given time, the proposal will not be further processed.

2. Fill the online submission form at bit.ly/DKG-FundingSupport

3. Submit FUND SUBMISSION PROPOSAL signed by the Head of Department with the attachment as follows:
   1. LoA
   2. CV
   3. Proposal legalization from department

4. Collect financial report file (SPJ) and TRAVEL REPORT maximum three days after arrival.

5. Upload the financial report file to bit.ly/SPJ-FundingSupport

FUNDING ESTIMATION

Students can check about the funding estimation that they can get from this scheme:

STANDAR BIAYA BANTUAN MOBILITAS

NO	NAMA KEGIATAN	LAMA KEGIATAN				
		> 6 BULAN	4-6 BULAN	2-3 BULAN	16-30 HARI	≤ 15 HARI
1.	ASEAN atau Asia Non ASEAN	3.000.000	2.400.000	2.200.000	1.750.000	1.500.000
2.	Jepang	4.300.000	3.600.000	3.300.000	2.800.000	2.500.000
3.	Afrika	6.700.000	5.700.000	5.300.000	4.600.000	4.200.000
4.	USA/Eropa	8.300.000	7.200.000	6.700.000	5.900.000	5.000.000

Inquiries

Subject: Student Funding Support_Name

Being an Erasmus student in the UK is one of the most challenging but remarkable stage in my life. This program has greatly improved myself in communication skills and problem-solving skills. Exploring new places and joining international communities while living in UK have broadened my perspectives. Not only I got the chance to learn different cultures, but I also was able to introduce Indonesia to my friends that come from around the world. It was such an amazing experience.

Gabriella Icasia
Information System (2017) - Erasmus+ Student Mobility at Cardiff Metropolitan University, UK Fall Semester 2019 Intake

Getting the opportunity to become an exchange student at one of the best universities in South Korea is something that will never be forgotten. I am one of 400 international students who completed our study in the spring semester 2019 at the Chung Ang University campus in Seoul, South Korea. There, I got the opportunity to study with very very complete facilities, friendly buddies, and various cultural exchange programs provided by the university. If you got the chance to study there, make sure you don't miss even one opportunity and explore as much as possible!

Learning with students here makes me realize how active and diligent the Korean students in learning. It gives new enthusiasm to me and encourage me to more exploring new things in the learning process. And can't be missed, the professor at CAU is very kind and so much helping students in learning.

Besides that, getting the opportunity to become a student who gets a scholarship from GKS for one semester is an honor for me. The scholarship I got from NIIED helped me a lot in undergoing this exchange program.

Until now, there are so many moments that I am grateful to have got it. Therefore, prepare yourself. Lots of opportunities waiting for you out there and make sure you don't miss it!

Ghina Alifia Nabilah
Architecture (2016) - Student Exchange at Chung-Ang University (CAU) South Korea Spring Semester 2019 Intake

What They Say

I never thought that I would go overseas during my college year. I didn't know much about ITS International Office nor its programs. My only interest was only to be an active student by joining many student communities, event organizing committees, and even student executive board of ITS. I also thought that going overseas is very expensive and complicated. I must complete my visa, adapt to a new culture, and be independent by living on myself.

After 2 years of joining many organizations and committees, I got bored. I also don't have any international experience, so I tried to find an opportunity that fits me. Then, ITS IO opened an opportunity to be an exchange student for 1 semester at Universiti Teknologi Malaysia. I tried to find the courses that could be transferred and luckily, I found several linear subjects. So, I consulted it with my department and applied for the program. I never thought that I could be accepted in this program because of my lack of experience in International exposure. But somehow, God guided me to embrace this path.

Then, after I arrived in Malaysia and began to study, trust me that every negative thought I have about student exchange is wrong. It was very worth it. I somehow learned how to cooperate with people with different languages and cultures. I also found different learning materials and techniques that enhanced my skill for academic purposes.

I wish I knew international programs earlier. Now my only thought is 'the world is moving fast, why was I still sitting in the same class?'. Don't miss any chance, find a program that ITS IO offered. It is worth to try.

Tio Noval Rizky

UNIVERSITI BRUNEI DARUSSALAM

Brunei Darussalam

The Universiti Brunei Darussalam is guided by its four core values; people, expertise, relevance and leadership. These values are used as yardsticks in the development and running of eight academic faculties, eight research institutes and two support centres ranging from Islamic Studies, Business, Arts, Science, Health Sciences, Asian Studies, Policy Studies, Education, Biodiversity and Integrated Technologies.

UNIVERSITI MALAYSIA PERLIS

Malaysia

Universiti Malaysia Perlis (UniMAP) is Malaysia's 17th public institution of higher learning. Approved by the Malaysian Cabinet in May 2001, it started off as a university college – Kolej Universiti Kejuruteraan Utara Malaysia (KUKUM). The institution's first intake comprised 116 engineering students who began classes in June 2002. In February 2007, KUKUM was upgraded to a full-fledged university and renamed Universiti Malaysia Perlis (UniMAP). The university is one of only four technical universities in Malaysia.

Important Notes

All incoming exchange students must have health insurance that covers the period of their stay in Korea. Students are required to purchase their own health insurance in their home country and submit proof of health insurance to us before coming to Korea. The insurance policy should cover sickness, accident, and health. Students shouuld also make sure to know how the health insurance works if any medical problems occur.

In accordance with the requirements of the Korean Immigration Service and our dormitory regulation, all successful applicants are required to submit proof an authorized tuberculosis test (through X-ray, skin, or blood) result that is taken within 45 days prior to their arrival in Korea. Students will be asked to attach the scanned copy of their tuberculosis test result on the online application later in February for Spring Semester and August for Fall Semester.

KUMOH NATIONAL INSTITUTE OF TECHNOLOGY

South Korea

Kumoh National Institute of Technology was founded as a specialized engineering college to foster outstanding talents at industrial sites that will lead our Korean economic development and it has continuously grown quantitatively and qualitatively, taking advantage of the nationalization in 1990 and campus relocation in 2004. Now, facing the new environment of the Fourth Industrial Revolution, our university also wants everyone to unite their minds with a 'new start'. Our university has a system of administration, finance, and communication for efficient college management. Through education, research and foreign cooperation, which are the unique functions of universities, we will make a university where students, professors, and staff are all happy and contribute to the local community and our country.

Important Notes

They request Health Insurance for exchange students staying in Korea. Students can purchase health insurance from their home countries, or they can purchase it through the International Office at KIT.

All students have been requested to submit the health and medical clearance form with their online applications as part of the required documents.

According to government regulation, students from certain designated countries will need to get re-tested for tuberculosis at the district public health center in Korea upon arrival.

Students need to obtain the D-2 Visa with the admission and invitation letter which will be issued by KIT.

POHANG UNIVERSITY OF SCIENCE & TECHNOLOGY

South Korea

POSTECH is Korea's first research university, established in a period when Korea was still chasing after advanced technologies of developed nations. It was founded on the belief that Korea needed a university that can spearhead global science and technology. POSTECH has been a university that constantly pioneered change and innovation in higher education. We boldly introduced an advanced education system that only a small elite university can implement and nurtured young talent essential to society. In research, we led technological innovation demanded by the times with superb research results.

ASIA UNIVERSITY

Taiwan

Asia University (AU) is a visionary, pioneering, and fast-growing school, and was founded with the goal of establishing a remarkable and comprehensive university with international competitiveness. Karl Jaspers, a German philosopher, believed that an ideal university must have three features- academic teaching, scientific research, and a creative cultural life, which exactly are what we have been pursuing for years since the establishment of the school. In the past of 19 years, AU has demonstrated excellence in academic performance, and was ranked as the first in many higher education evaluations conducted by the Ministry of Education (MOE).

FENG CHIA UNIVERSITY

Taiwan

The long-term vision for FCU is to establish itself as a prestigious Asia Pacific university characterized by continuous excellence in education and breakthrough research. FCU, furthermore, strives to cultivate the next generation of leaders by maintaining a broad world-view and equipping students with professional knowledge and skills, and an appreciation for the arts and humanities. Moreover, in the design of its new Shuinan campus, sustainability concepts will be incorporated to complement the development of the Taichung Gateway District and College Town. The goal is to become a campus with low carbon emissions, thereby fulfilling FCU's environmental and conservation responsibilities.

NATIONAL CENTRAL UNIVERSITY

Taiwan

National Central University (NCU) is a university with long-standing traditions in Taiwan. Founded in Nanjing in 1915, NCU was the leading academic center in Southeast China; the phrase "North the Peking University; South the Central University" at that time revealed the significance of NCU. NCU was later re-established in Taiwan in 1962 and started the development on the basis of Geophysics. After our endeavor over 50 years, NCU has expanded its school size and had great achievements both in academic and research development. NCU is now one of the leading universities in Taiwan.

NATIONAL CHUNG HSING UNIVERSITY

● ● ● ● ● ●

Taiwan

NCHU offers an open learning environment. We aim to develop students with the ability to think independently, invigorated with the spirit of lifelong learning. A journey is taken one step at a time. The founding philosophy of our school is to imbue students with certain core values, especially integrity, humility, professionalism, and diligence. As a leader in global academic development, Taiwan is interconnected with educational institutions around the world. This allows NCHU to seamlessly integrate classic traditions with modern state of the art ideas and facilities. Ultimately, National Chung Hsing University provides students with the opportunity to experience a world-class research university.

TAMKANG UNIVERSITY

Taiwan

Tamkang is a university of ideals, vision, and creativity. It sees the pursuit of excellence and ongoing innovation as characterizing sustaining its fundamental management philosophy. Over the last 60-plus years, since its foundation, TKU has focused on developing academic research, teaching, and learning services with an innovative spirit. It was the first university in Taiwan to employ Total Quality Management (TQM), which it introduced in 1992. In 2006, the Tamkang Quality Award was initiated to recognize outstanding departments committed to TQM. It has generated impressive results and garnered positive public feedback. TQM efforts were significant in helping TKU win the prestigious National Quality Award in 2009.

KING MONGKUT'S UNIVERSITY OF TECHNOLOGY NORTH BANGKOK

International College, Thailand

The International College of KMUTNB was established as part of the KMUTNB's international strategy under the 11th Higher Education Development Plan (2012–2016) as a response to the ever changing global business environment marked by the growth of borderless trade, technology, and the shift in capital investment flow. It's also the university's vision to response to the ASEAN Economic Community (AEC), the regional cooperation among ASEAN nations, which will soon be implemented in 2015. The AEC aims to advance ASEAN's position in world economy, by creating collaborations between member nations through free trade agreement of products and services, the flow of skilled workers, and the cross-border capital market. This gives rise to the urgent demand for the development of highly skilled human resources with well-rounded international skill set.

ISTANBUL TECHNICAL UNIVERSITY (ITU)

Turkey

Founded in 1773 with the name "Mühendishane-i Bahr-i Hümayun" (Imperial School of Naval Engineering) during the reign of Mustafa III, Istanbul Technical University is a prominent and pioneering university of engineering and architecture with many innovative studies in science, technology, research and development. Our university facilitates the knowledge and technology transfer to industries, management centers, and society. To do this, İTÜ has created many Techno-Science parks, incubation centers, entrepreneurship and innovation centers and technology transfer offices. This way, İTÜ offers a favorable environment for students to build a successful career in their professions, to improve themselves, to seek internship opportunities and to conduct research projects.

UNIVERSITY OF SOUTHERN DENMARK

Denmark

The University of Southern Denmark (SDU) is a fusion from 1998. The University received its first students in Odense in September 1966. Since then, it has gone from strength to strength. SDU now have five faculties and about 32,000 students, more than 15% of whom come from abroad. More than 4,000 employees are divided between the main campus in Odense and regional campuses in Slagelse, Kolding, Esbjerg, Sønderborg and Copenhagen. Several international reports testify that we conduct world-class research.

THE INSTITUT SUPÉRIEUR D'ELECTRONIQUE DE PARIS

France

ISEP is a French engineering graduate school in digital technology, known as a "Grande École d'Ingénieurs". ISEP trains very high-level graduate engineers who receive a thorough training in Electronics, Telecommunications & Networks, Software Engineering, Signal-Image Processing and Humanities, providing them with the required knowledge and skills to meet the needs of businesses. Since 2008, ISEP has been offering an international program taught fully in English which allows international students to obtain the Engineering Master Degree. Thanks to a strong partnership with the companies in related industries, this program includes a professional internship.

Important Notes

All incoming exchange students must have health insurance that covers the period of their stay in Korea. Students are required to purchase their own health insurance in their home country and submit proof of health insurance to us before coming to Korea. The insurance policy should cover sickness, accident, and health. Students shouuld also make sure to know how the health insurance works if any medical problems occur.

In accordance with the requirements of the Korean Immigration Service and our dormitory regulation, all successful applicants are required to submit proof an authorized tuberculosis test (through X-ray, skin, or blood) result that is taken within 45 days prior to their arrival in Korea. Students will be asked to attach the scanned copy of their tuberculosis test result on the online application later in February for Spring Semester and August for Fall Semester.

UNIVERSITY OF TECHNOLOGY OF TROYES

France

The University of Technology of Troyes (Université de Technologie de Troyes or UTT) was established in 1994 and inaugurated by Jacques Chirac as one of a trio of universities of technology, set up by the University of Technology of Compiègne (the commune in Northern France where Troyes is located). It is now one of the largest engineering schools in the country. Inspired by the American University of Pennsylvania in Philadelphia, these three universities (including University of Technology of Compiègne and The University of Technology of Belfort-Montbéliard) blend the usual French university model with its schools of engineers (Grandes Ecoles). Because of this, the teaching is pitched between North American models and French traditions – students have the choice of which course to study, and do directed work (TDs) and practical work (TPs). The final engineering degree is equivalent to the Bac+5 format given by Grandes Ecoles.

Frequently Asked Questions

How do I apply for an IEP?

For the registration and documents' submission, students can do this directly to the online channel that has been informed by ITS GE at the time of the IEP announcement. For more complete information, please kindly find it at the link: **bit.ly/its-student-exchange**.

I am a first-year student, can I join the IEP program?

You cannot, because you do not yet have a transcript.

Can I use any type of English certification, such as EFL // TOEFL ITP / TOEFL IBT / IELTS?

Each of the universities and programs may have different requirements in terms of types of certificates and the minimum score. Students are highly advised to read the document requirements thoroughly for each of the programs on the ITS GE website and or overseas partner universities.

Can I get a TOEFL / TEFL certificate at ITS GE?

No, please contact UPT Bahasa (Centre for Languages and Cultures) ITS.

Can the TEFL that I collect be in the form of a screenshot on the UPT Bahasa website?

For student exchanges, this must be in the form of a certificate. For short programs, some allow screenshots, please check the terms of each program.

Where can I get an active student certificate or certificate of enrollment?

You can access it on the student's integra account (integra.its.ac.id) to get an active student certificate that has a signature (in the form of a barcode) with the following steps:
- Login to the integra account
- Click S1 Academic
- Click Student Letter
- Click Active Student Certificate
- Fill in the data in the required column, select "other" (write the name of the program to be followed)
- Submit a letter and wait within 1-2 days for approval

Whom can I ask for a Recommendation Letter?

Recommendation letters can be submitted to lecturers in the department/faculty the student is from. It is hoped that the giver of the recommendation letter is someone who knows the students well enough.

If I want to take part in student exchange, can I apply for leave?

No, students must remain registered as active ITS students because at the end of the IEP program students must transfer credits (credits).

Can I consult ITS GE to find out what courses can be transferred?

No, please consult with your respective departments to discuss the possible courses that can be transferred.

How can I find out which courses that are available to be transferred to the host universities?

The courses that are available for the transfer may vary depending on the program and the destination university. Some are possible for certain faculties, some are not. All information is posted on the ITS GE website. Students are also advised to check the referral links provided in each of the IEP posts.

What if I still have problems and are confused about the IEP registration process?

Please contact the ITS GE Official Account. However, please make sure that you have read the information provided carefully. Your query will not be responded if the information you need is clearly stated on the website.

How to calculate living expenses and other expenses during the program?

Prices, fees, and the exchange rate can change on a day-to-day basis. You are advised to calculate your own estimated cost of living by referring to the latest information from trusted sources. Please also note that the living costs hugely vary depending on location and the personal lifestyle you have.

Will ITS Global Engagement help with visas?

No. ITS GE only helps you to provide a cover letter to get the visa. Other required documents or processes in the visa application must be handled by the students. Please be informed to also check the official information for visa application in your destined country.

How long is the duration of the IEP?

The duration of IEP is mainly 4-6 months. However, the duration of each of the programs may vary.

Frequently Asked Questions
