

INTERNATIONAL UNDERGRADUATE PROGRAM

FOR INTERNATIONAL STUDENTS*

*Non-Indonesian nationality/Indonesian nationality living overseas.

ITS Surabaya is ranked as the 4th best university in Indonesia according to the assessment by the Indonesia Ministry of Research and Higher Education (2019) and ranked third in the country based on the 2019 Times Higher Education ranking. Established in 1960 as a public technological university, ITS has now grown into an institution with more than 1,000 academic staff, and 38 departments in 7 faculties. Situated in Surabaya, a large port and the second largest city in Indonesia, ITS has a vision to become a world-class research and innovative university, contributing to the society, industry, and marine development. ITS now opens the International Undergraduate Program (IUP), offered for prospective students from around the world and Indonesia.

Gabriella Icasia | Information System Department

Being an Erasmus student in the UK is one of the most challenging but remarkable stage in my life. This program has greatly improved myself in communication skills and problem-solving skills. Exploring new places and joining international communities while living in UK have broadened my perspectives. Not only I got the chance to learn different cultures, but I also was able to introduce Indonesia to my friends that come from around the world. It was such an amazing experience.

Erasmus+ Student Mobility
Cardiff Metropolitan University, UK

Nabila Anindya Salma | Biology Department

Being selected as an awardee of one semester scholarship program for ASEAN, Chulalongkorn University, Thailand is an extraordinary experience. It's like a dream comes true and yes, I am living my dream right now. This is my first experience doing a study exchange and it has become a very challenging experience. For 4 amazing months, I learned a lot of new things, learned how to cooperate with people from different country and language, tried different kinds of new foods, and learned new cultures.

Chulalongkorn University, Thailand

Diaz Batara S. | Computer Engineering Department

My Dankook University experience was one of the best things that has happened to me. The moment I arrived there, everything was already prepared. Everything that I was going to need from day 1 has already been listed or given to me. Dankook also has its facilities kept in good shape, and you can literally find everything you need inside the campus. The various events and programs they prepared for international students such as the Dankook Festival, night outs with the buddies, road trips, etc., was worth all the memories. Their hospitality level is top notch; I am forever grateful.

Student Exchange Program
