

East Java Exploration (EJx)

21 June - 9 July 2021

INTRODUCTION

People's interactions are recognized as the foundation for effective cooperation and development, just as enhancing youth mobility is believed to bring great benefits for mutual understanding and future collaboration among countries. But then, the COVID-19 Pandemic has made physical mobility unlikely. And hence, 9 leading East Java Universities are introducing East Java Exploration (EJx) through an online platform.

EJx is designed as a general course with a multidisciplinary approach for participants to explore East Java in various aspects. Through virtual culture tours and a series of online lectures, discussion, and direct interaction with people from different backgrounds, participants will gain better understanding about East Java and its potential and challenges.

Each meeting is organized in an online system in which participants will learn via online lectures. The curriculum is intended to improve awareness, insight, and cross-cultural understanding for the participants. Therefore, there is no doubt that participants will gain an unforgettable experience from a fun and engaging learning method.

LEARNING OUTCOMES

1. Participants understand various topics related to East Java situation and challenges
2. Participants are able to recognize and identify problems related to the presented topics and the way to solve the identified problems or improve the situation using a multi-disciplinary approach
3. Participants learn cultural aspects of Indonesia and gain cross-cultural understanding about East Java people and its culture
4. Participants are able to communicate their ideas and thoughts verbally and in writing to wider audience from different background

ELEMENTS OF THE PROGRAM

1. Academic related activities
Session with particular topics that delivered by the expert. Students will be guided to have interactive discussion.
2. Language and cultural knowledge
In addition to the Indonesian language course, there are many cultural knowledge in the program, such as Malangan Javanese language, culture and tradition in Eid Fitri, and Surabaya Bonek culture.
3. Online sightseeing
City tour through the online platform will be very useful for participant's new insight and exploring experience.

CREDIT EARNING AND NON CREDIT PROGRAM

Participants can choose to take part in the credit earning / non-credit program. Participants who apply to the credit earning program will get a transcript and a certificate of completion. Participants who do not apply for the credit program will just receive a certificate of completion based on the minimum entry requirements of the whole program. All Participants are required to complete a final group presentation. Participants are asked to choose 3 topics of interest that would be used as the basis of group forming & project assignment.

TRANSCRIPT FOR CREDIT EARNING

The transcript will be granted to participants who complete the assessment requirement below:

- | | |

Culture and Tradition in Eid Fitri

| | |
|------------|--|
| Synopsis | Idul Fitri known as ‘Lebaran’ in Indonesia is the celebration that comes at the end of Ramadan, Muslim month of fasting. Thousands of people will gather at the mosques for Eid prayers, celebrating the special event together with family and friends. Having more Muslims than any other countries in the world, Eid celebration in Indonesia is a festive occasion with a variety of traditions and customs. This course aims to provide an understanding of the history, tradition, and custom of Eid celebration in Indonesia. The course will give an example of cultural traditions, activities, and culinary that are available in Eid celebration and identify the message of the tradition. |

Malangan Javanese and Walikan Language

| | |
|-------------|--|
| Synopsis | Javanese is an Austronesian language spoken on the Indonesian island Java. East Javanese, which is part of the Javanese dialect continuum, forms the focus of this course. Malangan Javanese is the localized variety of East Javanese spoken in Malang. Despite its local domain, the language is widely used in the Indonesian social media and has its own youth slang, Walikan language or <i>Boso Walikan Malang</i> . Several aspects of Malangan Javanese will be addressed during the course, including its phonological features, verbal morphology, speech levels, and diglossic relation with standard Indonesian. Many of these characteristics are Areal Features that are important to take into account for linguistic research in a broader Island Southeast Asian context. In addition, the course will discuss the structure and word-formation strategies in Walikan. |

Smart City

Synopsis

A city is expected to be an urban area that creates sustainable economic development and high quality of life. A Smart City is a city that manages such development by excelling in multiple key sectors. Smart City has become a major issue in today's city development in the world. Smart City consists of 6 main pillars, namely Smart Economy, Smart Environment, Smart People, Smart Living, and Smart Government. All these pillars can be achieved through strong human capital, social capital, and ICT infrastructure. This course introduces participants to the concept of smart city and how Surabaya evolves towards a smart city. Many aspects of Smart City including e-government services and one stop public services (Smart Government), Surabaya Intelligent Transport System (SITS – Smart Mobility), 112 Command Centre (Smart Living), Broadband Learning Centre (BLC) and community-based-library (Smart People), and community-based waste treatment (Smart Environment) will be discussed through an interactive teaching method and site visit.

Start-up Ecosystem in Malang City

Synopsis

Kota Malang (Malang City) is known as a creative city, where some of the national start-up has its support in Malang. This project will show students about some “lessons learned” in running the start-up business and invite them in a “design thinking” project of Business model canvas. Through this project, we hope the students will understand both the business and legal process in building up the start-up and will connect the east java start-up with a global value chain.

Surabaya Youth Identity: “Bonek Culture”

Synopsis Bonek is an acronym taken from the Javanese language namely Bondho Nekat, (Indonesian: Modal) and Nekat (Indonesian: have a strong will). So bonek literally means 'capitalized tekak or strong will'. At the beginning of 2017 the new management of Persebaya Surabaya through club president Azrul Ananda tried to remove the negative stigma against Bonek known so far by giving additional words 'creative' so now Bonek is known as Bondo, Reckless & Creative. Bonek supporters group has a slogan or greeting that is always spoken when meeting with their neighbors namely "Salam Satu Nyali" and replies with "Wani!" (Javanese: Brave)

This activity aims to give the students a different perception about “Bonek Image”. Since 2017, Bonek has had a negative stigma due they have aggressive manners. Otherwise Bonek in the term of meaning 'creative' so now Bonek is known as Bondo, Reckless & Creative. With this topic, we purpose to deliver the Surabaya Youth Culture that has been positive contribution in Youth resilience as Surabaya’s.

Institutional Arrangement of Tobacco for Community Welfare and Tobacco for Health

| | |
|-------------|--|
| Synopsis | Tobacco is a fancy and export oriented flagship product particularly as raw material for cigar production in Jember Regency. Various tobacco species create characteristics with different functions of substances. The pros and cons about tobacco products have become challenges to increase the benefits. Several challenges on the dynamic demand of international standard and market quality emerge as logical consequences requiring serious concerns from all parties. The challenges include the cultivation techniques, other products than cigarettes and cigars, management system from upstream to downstream in each tobacco cultivation chain to increase additional values and improve the tobacco farmers' and business players. |
