ABOUT US

Energy Academy is an independent international educational project for students from all over the world. Institute of Energy as a part of Peter the Great Saint-Petersburg Polytechnic University organises Energy Academy four times a year – 8 courses during Winter and Summer Session; Hydrogen Energy Course during Spring and Autumn Session.

The Academy provides the opportunity to attend the intensive academic programme with lectures, live sessions, interactive online lessons, keynote sessions, cultural course etc.

All studies are developed according to the European requirements and can be recognized as a period abroad. Upon successful completion of the course, students are awarded with 3 ECTS credits.
