International Schools Department of Samara National Research University makes two-week schools for students since 2015.

Samara University (is in top-10 universities in Russia) organizes the schools both online and offline. ECTS certificate is provided.

- **1000+ participants**
- **52+ countries**
- **Study and cultural parts**

Samara city is located in the southeastern part of European Russia on the eastern bank of the Volga River. Samara is the space capital of Russia. Now it is an important political, industrial and cultural center of Russia. The city is a busy communication hub and an important center of the aerospace, automotive, chemical and energy industries.

Cultural & social program is a daily part of International schools. Cultural part includes tours around Samara city to:

- **old town of Samara;**
- **Samara city's embankment;**
- **historical Leningradskaya street;**
- **campus of Samara University;**
- **traditional Russian cafés and stores;**
- **acquaintance with Russian way of life.**

Social part of the program includes online playing games with the team of international school and online playing quiz about Russian culture.

Samara University is one of the most dynamically developing Russian universities. The University is formed by the union of Samara State Aerospace and Samara State Universities. In recent years, the university has been steadily improving its performance in Russian and international rankings. For many years, Samara University has been inextricably linked with the overall industrial and economic development of the region, which is one of the leading domestic and world centers of aerospace technologies. Currently, teaching and research at Samara University are organized by 7 institutes. There are many unique scientific laboratories here.

Space Materials and Technologies

The development of space research is a priority around the world. Humanity has always dreamed of near and long-distance flights into space and to other planets of the solar system.

Technology created for space concentrates everything the most advanced, from design decisions to the choice of new materials and technologies. While designers can find technical solutions with the help of computer modeling, the implementation of these solutions requires the development of new materials and innovative technologies.

With advanced experience, Samara University (is in top-10 universities in Russia) organizes this two-week school. The most outstanding scientists will lead you to the insights of laboratories and show you machines and satellites that were created here in Samara National Research University and now are applied all over the world.

Certificate on 4 ECTS (offline)/ 3 ECTS (online) is provided.

Fashion Studies

The School of Fashion Study (SFS) is a digital stylist school for those who want to learn how to match clothes in a certain style and taking into account fashion trends, always looking good and helping clients. On the Digital Stylist course, you will learn about fashion trends, make creative works: collages and videos of original design and author's style. After this course, you will be able to work with clients at a higher professional level, help select clothes and accessories, create fashionable looks and become a more successful online stylist. The intensive format of the SFS school will help you improve your skills in a short time. You will be exploring photo processing applications. From clothing options, you will create fashionable bows. You will also explore color predictions for seasons 2022-23

We have partnered with the renowned online Beijing international Stylist King contest and your creative work can make you a celebrity on social media!

Certificate on 2 ECTS is provided.
