

PROGRAM GUIDELINE

Global Learning Program 2022

19 – 24 September 2022, ITS Surabaya, Indonesia

PROGRAM DESCRIPTION

Institut Teknologi Sepuluh Nopember (ITS) Surabaya as a prominent university in Indonesia in the fields of science and technology actively promotes internationalization activities as part of its vision to equip future generations with global skills. Global Learning Program (GLP) is a guest lecture week designed to connect international professors and lecturers with ITS students.

GLP 2022 will be conducted physically on-site in ITS, Surabaya, Indonesia, 19th – 24th September 2022, after being held virtually in 2020 and 2021. In addition to guest lectures, GLP 2022 also includes activities such as networking events, local tour, and faculty meetings. The aim of these activities is to enhance collaboration between peers from various institutions participating in the program, provide unique experiences in Surabaya and Indonesia, and to help promote the home institutions of the guest speakers to ITS students and faculty members.

ELIGIBILITY OF SPEAKERS

- International faculty members from universities outside Indonesia.
- Able to commit 6 hours of teaching in three guest lecture sessions, consisting of lecture(s) in the following general courses: Physics, Chemistry, Mathematics, English, Technopreneurship, or Insights and Applications of Technology, and lecture(s) with a topic for a more specific audience in the department level.
- Not having participated in prior ITS programs or visits.
- Applications to become a guest speaker in GLP 2022 will be reviewed and selected based on the criteria above and available slots. Interested applicants should register at: <https://bit.ly/SpeakerGLP2022> by August 31st, 2022.

COURSES FOR GLP 2022 GUEST LECTURE SESSIONS

The mandatory guest lecture in GLP 2022 is for any of the following general courses in Semester I, 2022/2023 in ITS:

- English (Semester 1)
- Physics 1 (Semester 1)
- Chemistry (Semester 1)
- Mathematics 1 (Semester 1)
- Technopreneurship (Semester 5)
- Insight and Applications and Technology (Semester 5)

It is highly recommended that the title of the guest lecture is in line with the course syllabus which can be viewed from: <https://www.its.ac.id/international/e-program/glp/>

Additional guest lecture session should be arranged in the department level with a more specific topic. The topic is to be discussed with the faculty coordinator, however an initial proposed title can be submitted during application.

DATES OF PROGRAM AND AGENDA

The guest lecture sessions will be arranged to be in line with the existing class timetables of the general courses above. As such, the program will be divided into to overlapping batches as follows:
