YOUR ULTIMATE SOURCE ON  
ITS GLOBAL ENGAGEMENT UPDATES

February 2023

Greetings, ITS Partners! Carrying on a few projects done in January, ITS has more opportunities awaiting for participants to join.

CommTECH Camp Insight especially Sub Course C & D, will be coming this month on 27 February 2023. The program is exclusively targeted for active lecturers, non-academic staff & active bachelor, master & doctoral students from any background and even offers full or partial scholarship for limited participants.

As one of the manifestation of Internationalization, ITS hosted the 2023 UMAP Discovery Camp. It is a student exchange program that was conducted on 5 - 17 February 2023. Besides UMAP Discovery Camp, ITS also held Orientation Week to welcome exchange and internship students. With the assistance of their buddies, the participants were not only introduced to the ITS environment, but also treated to an array of thrilling game sessions!

Beside student mobility programs, ITS recently hosted Universiti Teknologi Malaysia (UTM) for the UTM Attachment Program from February 3-9, 2023. The program was a wonderful opportunity for both institutions to benchmark and stay ahead of the curve in academic advancements. Furthermore, the event also strengthened the already close-knit relationship between ITS and UTM, which bodes well for future collaborations and academic mobility.

As one of the leading universities in the technology, ITS has developed several innovations throughout the years until present. Take, for instance, the Multipurpose Electric Vehicle ITS (MEvITS) and 5G LED Bulb – these groundbreaking products represent a significant leap forward in the adoption of renewable energy. Get ready to witness the future of sustainable tech!
