

Jean Ronne

France
Internship Student
ENIT

In **France**, I got introduced to this study abroad opportunity at **ITS** by my teacher who is from **Indonesia**. In order to graduate from my courses, I need an experience abroad, so I figured out that this is the **perfect opportunity** for me.

As I come from a **small city** in France, I was surprised by how **big** the city of **Surabaya** is. Even the **campus of ITS** is far **larger** than my **home university**. In my first weeks here, I got **lost** quite often because the campus has so **many buildings**.

My **favorite experience** in Indonesia is the trip to Sidoasri Village in Malang (**Cultural Camp**) organized by **ITS Global Engagement**. It was really **refreshing** as I got to **discover** the way to **live** in a **village** from the **countryside**.
