My first impression about Surabaya, I was surprised at the number of scooters, but more seriously I find that Surabaya is a city where the locals are very nice. And my first impression of ITS, as soon as we arrived we had a real follow-up and the people are welcoming!

I love the activities offered by ITS. My favorites are Mount Bromo Exploration and Cultural Camp! The volunteers and the supervisors are there when we need help.

During day-off, I also discovered some neighboring islands and cities. Indonesia is a country to discover because it is beautiful and it is a nice place!
