Institut Teknologi Sepuluh Nopember (ITS) has been actively engaged in strengthening international collaboration through the Erasmus+ program, with a focus on student, staff, and teaching mobility. To date, ITS has built partnerships with 20+ universities across 12 European countries, including Poland, France, the Netherlands, Spain, Turkey, Italy, Belgium, Denmark, Finland, Romania, Bulgaria, and Greece. ITS has participated in several Erasmus+ projects and consortia, such as IMPAKT, Interweave, and ICM, which have enabled over 300 outgoing and incoming mobilities for students, lecturers, and administrative staff. In recent years, ITS has also secured funding for mobility with multiple European partners, creating new opportunities for academic exchange, joint research, and capacity building that continue to strengthen its role in the global higher education network.
