## 2026

### *Inviting Students to INDIA for Empowering Future & Cultivating Empathy*

"Ubuntu 2026" allows your students to connect with the new India / Bharat and build networks and connections at multiple levels. Ubuntu -2026 focuses on the **Sustainable Development Goals (SDG) - #4 & 17**

September 2026

अतुल्य ! भारत  
Incredible India

# India

## UBUNTU 2026

*“Learning Beyond Borders: India Academic Tour.”*

The program is designed exclusively for students pursuing higher education in various faculties. The multi-fold objective of this program is to introduce the visiting student to the working culture, academics, and the developing ecosystem for entrepreneurs of today's INDIA. During the visit, the students will also witness the vibrant culture of India in the form of food, dressing & lifestyle. We arrange this program **every Quarter** of the year. Thus, students can immerse themselves in the country's vibrancy during their stay. The program lets students embark on a transformative journey to India. Interactive classroom sessions, visits to Indian startups, and the Chamber of Commerce. Every day, a value-added activity engages students and helps them to build empathy towards their colleagues and meet people from different walks of life.

# Key Features Of The Program

Visits to Universities and classroom interactions exploring Indian Academia

Visits to Industries and Chamber of Commerce / World Trade Centre

Cultural Exposure: Stay over with Indian families and participate in celebrating the Ganesh Festival

Cultural Awareness: Witness the Indian food culture and traditional lifestyle

Presentations & Visits places of cultural interest and Forts, etc

Interactions with business leaders and entrepreneurs about the Indian ecosystem and new opportunities.

Students between the ages of 18 and 28 from any discipline or faculty studying in higher education can participate in this program.

# The **UBUNTU** Story

*'I am because we are'*

Ubuntu philosophy is a way of living that emphasizes the importance of community, compassion, and interconnectedness.

An anthropologist proposed a game to children in an African tribe. He put a basket full of fruit near a tree and told the children that whoever got there first won the sweet fruits. When he told them to run, they all took each other's hands and ran together, then sat together, enjoying their treats. When he asked them why they had run like that when one could have had all the fruits for himself, they said, 'UBUNTU, how can one of us be happy if all the other ones are sad?'

Script your own Ubuntu story during this Indian Immersion Program
