Description of the course

The course 'Russian Winter Fairy tale' is meant for those who want to go on a fabulous journey in the world of the Russian language and culture. A two-week intensive course in **the Russian language with elements of Russian folklore** will help not only improve your Russian language skills in a short period but also discover a new world of Russian winter traditions.

The course is designed for **students who only start learning the Russian language** as well as for those who have already studied it before.

Why this course?

Discover Russian winter traditions while improving your language skills — through holiday texts, festive vocabulary, and the most mysterious season of the year — the Russian carnival winter.

Contents of the course

According to your language proficiency, we will offer you a comprehensive intensive course in the Russian language which will help you to explore Russian grammar and excite you with intimate conversations and songs about the Russian winter.

Teaching method

Highly professional professors of the Russian language as the second language carefully select the educational materials. As the main teaching technique, they use **a communicative approach and create situations of real communication** during the classes.

The professors offer **functional grammar and written and oral tasks** designed to improve grammar skills in your speech. With the help of authentic text, audio and video materials as well as interesting creative tasks, they introduce students to **a unique national cultural context** and this is how they reach the main goal of the studies — full-fledged communication in Russian.

Final exam

As the final part of this course, the students are offered to prepare a presentation in Russian within the theme of the course.

Assessment

The final grade for the course is formed by the final exam (50%) and the grade for the ongoing work (50%).
