DISABILITIES
AT INSTITUT TEKNOLOGI SEPULUH NOPEMBER**

To: All Deans and Heads of Department

Regarding the absence of an admissions system policy for prospective students with special needs or disabilities, we hereby inform you that the admission system policy is currently in the process of being drafted and included in the ITS quality standards that will apply in 2022. The matters relating to admissions for prospective students with special needs/disabilities are as follows:

1. ITS provides support to prospective students with special needs/disabilities by providing the opportunity to extend the study period based on the type of special needs/disabilities.
2. The new student admission policies 2022 are as follows:
 - a. ITS does not impose additional requirements or exceptions for prospective students with special needs/disabilities;
 - b. ITS does not impose special requirements of color blindness for certain study programs.
3. ITS provides facilities and infrastructure for prospective students with special needs/disabilities in general.

Thus, we thank you for your attention and cooperation.
