No. : 406/IFI/2026

Subject : Launching of the LPDP–France Doctoral Scholarship Program 2026

Annex : Poster

Dear Sir,

On behalf of the French Embassy in Indonesia, I am pleased to inform you of the launch of the LPDP–France Doctoral Scholarship Program 2026, a joint initiative between the French Government and LPDP (Indonesia Endowment Fund for Education). This program aims to support Indonesian graduates in pursuing fully funded doctoral studies at higher education and research institutions in France.

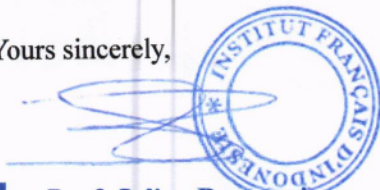

We believe this initiative represents a valuable opportunity for your institution to encourage some of your most promising Master's graduates, young lecturers, and researchers to pursue advanced doctoral studies abroad. It may also serve as a way to further strengthen existing academic and research collaborations between your university and French institutions.

In this context, we would be most grateful for your kind support in disseminating information about this program within your institution, particularly to eligible Master's graduates, junior lecturers, and researchers who may be interested. The guide to this program is available on the LPDP website: <https://lpdp.kemendikbud.go.id/en/beasiswa/beasiswa-kemitraan-double-degree-joint-degree/france-doktor2026>.

To facilitate this, we have prepared promotional materials that may be shared through your internal academic networks, research directorates, or graduate student offices. Should your institution be interested, we would also be delighted to offer an online or in-person information session tailored to your needs.

We sincerely thank you in advance for your cooperation and support in helping us reach potential candidates. Please do not hesitate to contact us via WhatsApp (+6221 2355 7925) should you require further details or wish to explore possible modes of collaboration.

Yours sincerely,

**Prof. Julien Bourgeois**  
Attaché for Science and Technology  
Institut français d'Indonésie  
French Embassy in Indonesia, Timor Leste, and ASEAN
