MODULE HANDBOOK

FINANCIAL ANALYSIS

Module name	FINANCIAL ANALYSIS	
Module level	Undergraduate	
Code	SS234634	
Course (if applicable)	FINANCIAL ANALYSIS	
Semester	6	
Person responsible for the module	Dr.rer.pol Dedy Dwi Prastyo, S.Si, M.Si.	
Lecturer	Dr.rer.pol Dedy Dwi Prastyo, S.Si, M.Si. Dr. Drs. Agus Suharsono, MS	
Language	Bahasa Indonesia and English	
Relation to curriculum	Undergraduate degree program, elective, 6th semester.	
Type of teaching, contact hours	Case Method (41,18%) Team Based Project (5,88%) Other SCL Methods (52,94%)	
Workload	1. Lectures [L] : $3 \times 50 = 150$ minutes per week. 2. Exercises and Assignments [EA] : $3 \times 60 = 180$ minutes (3 hours) per week. 3. Independent learning [IL]: $3 \times 60 = 180$ minutes (3 hours) per week.	
Credit points	3 credit points (SKS) Equivalent to 4.8 ECTS	
Requirements according to the examination regulations	A student must have attended at least 80% of the lectures to sit in the exams.	
Mandatory prerequisites	Regression Analysis	
Learning outcomes and their corresponding PLOs	CLO-1. Get to know investment instruments CLO-2. Understand the investment risks related to global macroeconomics CLO-3. Understand the risk and return in Capital Market CLO-4 Able to Analyze the Financial Statement (Report) of Corporate CLO-5. Able to analyze the financial distress and credit risk	PLO-4 PLO-9 PLO-10
Content	Financial analysis courses have material aimed at making students familiar with investment instruments, including financial markets and their products, understanding national and international macroeconomic dynamics and their relationship to returns on investment products. In addition, students are also introduced to company financial reports (financial statement - financial ratios) analysis. Students are	

	expected to be able to apply the statistical method for technical analysis in financial markets and to be able to calculate financial risk. The learning strategy is regular lectures, guest lectures from practitioners, visits to the Surabaya Stock Exchange, and project assignments. Meanwhile, evaluation through exams (written / oral) and project delivery.
Assessment and its weight	Cognitive Quiz 1 (15%) Midterm Exam (25%) Cognitive Quiz 2 (30%) Project – Final Exam (30%)
Media employed	LCD, whiteboard, websites (myITS Classroom), zoom

Deskripsi Singkat MK/ <i>Course Description</i>	<p>Mata kuliah analisis finansial mempunyai materi yang ditujukan agar mahasiswa mengenal instrument invetasni, termasuk di dalamnya adalah pasar keuangan beserta produk-produknya, memahami dinamika makro ekonomi nasional maupun internasional dan keterkaitannya dengan imbal hasil dari produk investasi. Selain itu, mahasiswa juga dikenalkan dengan laporan keuangan perusahaan dan rasio keuangan. Mahasiswa diharapkan mampu menerapkan metode Statistika untuk analisis teknikal di pasar keuangan serta mampu menghitung resiko kredit. Strategi pembelajaran adalah perkuliahan regular, kuliah tamu dari praktisi, berkunjung ke Bursa Efek Surabaya, dan penugasan projek. Sedangkan evaluasi melalui ujian (tulis/oral) dan pemberian projek.</p> <p><i>Financial analysis courses have material aimed at making students familiar with investment instruments, including financial markets and their products, understanding national and international macroeconomic dynamics and their relationship to returns on investment products.
