11 SUSTAINABLE CITIES AND COMMUNITIES

“Investments in infrastructure – transport, irrigation, energy and information and communication technology – are crucial to achieving sustainable development and empowering communities in many countries.”

(THE Impact Rankings)

SUPPORT OF ARTS AND HERITAGE

ITS Professors Performs *Wayang Orang*

A Hybrid Wayang Show enlivened ITS at their 61st Anniversary. The Wayang Show performance was a Wayang Orang and Wayang Kulit combination. Therefore, there are both humans and wayang in appearance. The professors who play the show are from the Professorship Council, which originated from different regions of Indonesia. However, to perform the beautiful culture, the professors work hard to carry a remarkable story of Harjuna Sasrabahu.

SUSTAINABLE PRACTICES

Healthy Community Webinar

The Planology Students Association (HMPL) of the Urban and Regional Planning Department in ITS realize the importance of achieving an independent and healthy community around them. Accordingly, the organization held an annual international webinar, Planopolis, inviting international lecturers and researchers. The event mainly focuses on Community Health. Hence this year, the main topic of discussion is the infrastructure that supports clean and healthy living behaviors and healthy settlements, housing, and buildings.
