4 QUALITY EDUCATION

“A high-quality education should be an area where universities excel. Education is a key gateway out of inequalities, especially multi-generational ones. In addition to improving quality of life, access to inclusive education can help equip locals with the tools required to develop innovative solutions to the world’s greatest problems.”

LIFELONG LEARNING MEASURES

ITS Supports Lifelong Learning

When it comes to learning, ITS believes that learning should be accessible to the public, regardless of their age. Such effort can be seen, where ITS created a publicly-available "Pojok Statistik" inaugurated by a representative of East Java's Central Bureau of Statistics, as well as holding a training session for the usage of Moodle to the teachers of SMAN 1 Pacet, Mojokerto. These efforts are done according to the ITS' 2017 Academic Senate's Policy on ITS Student's Development Point 5.9 about The Development of Lifelong Learning.

LIFELONG LEARNING MEASURES

The Dissemination of Statistical Products

To support the dissemination of the variety and benefits of statistical products in universities, the Head of the Indonesian Central Statistics Agency (BPS), Dr. Margo Yuwono SSI MSi, inaugurated the Statistical Corner at ITS. The Statistical Corner itself is a collaboration service between BPS and universities in Indonesia that academics can use to discuss, fulfill research, and increase innovations. The facility is in Building H of the ITS Statistics Department, and this Statistical Corner is the 7th in Indonesia and the first in East Java.
