GENDER EQUALITY

“Women and girls continue to suffer discrimination and violence in every part of the world. Gender equality is a fundamental human right, and a foundation for a peaceful, prosperous and sustainable world. Providing women and girls with equal access to education is a key part of delivering gender equality, but universities also have a wider role to drive forward gender equality in their communities.”

STUDENT ACCESS MEASURES

ITS Supports Gender Equality

ITS believes that access to knowledge should be available to everyone regardless of their gender. This is shown through one of the requirements for registering to ITS through the Public University National Entrance Selection (SNMPTN), where women are prioritized for acceptance in ITS. This is proven by the fact that, for the 2020 Public University National Entrance Selection, out of the 52 allocated quotas, 24 quotas are prepared for women. This can be seen in the mechanical engineering department, where they decided to prioritize more female applicants.

WOMEN'S PROGRESS MEASURES

ITS Againts Gender Discrimination

In ITS, gender discrimination is not tolerable, especially toward women. Such action is controlled through several regulations, such as the ITS Statue No. 54/2017 Paragraph 2, Article 18 on Student Enrollment and ITS' 2017 Rector Regulation No. 2, Chapter 4, Part 2, Clause 8 on Admission. Furthermore, organizations such as GIRL UP ITS are available to give safe space to female students in ITS. This is also shown through the number of female graduates, which has been recorded since 2015.
