MODULE HANDBOOK

MEDICAL INFORMATION MANAGEMENT

Module name	Medical Information Management	
Module level	Undergraduate	
Code	EB234910	
Course (if applicable)	Medical Information Management	
Semester	Specialization	
Person responsible for the module	Dr. Norma Hermawan, S.T., M.T., M.Sc.	
Lecturer	Dr. Norma Hermawan Rasyida Shabihah Zukro Aini, S.T., M.T.	
Language	Bahasa Indonesia and English	
Relation to curriculum	Undergraduate degree program, specialization .	
Type of teaching, contact hours	Lectures, <60 students	
Workload	1. Lectures : 3 x 50 = 150 minutes per week. 2. Exercises and Assignments : 3 x 50 = 150 minutes per week. 3. Private learning : 3 x 50 = 150 minutes per week.	
Credit points	3 credit points (sks)	
Requirements according to the examination regulations	A student must have attended at least 75% of the lectures to sit in the exams.	
Mandatory prerequisites	-	
Learning outcomes and their corresponding PLOs	Course Learning Outcome (CLO) after completing this module, CLO 1: Students understand and able to explain the basic concepts of medical information management. CLO 2: Students understand and able to explain the classification and representation of medical data. CLO 3: Students understand and able to explain the basic concepts of numbering systems and medical data storage and its application.	PLO-05 PLO-05 PLO-02

	CLO 4: Students know, understand and able to explain legal aspects and the latest development of medical information management.	PLO-11
Content	Medical Information Management course aims to provide an understanding of basic concepts of information management and its application in the medical field, classification and representation of medical data, medical archiving, ethics and law as well as the latest developments in the medical information management system. Students are expected to be able to implement this knowledge in practice with network programming, error coding and data encryption in order to develop a medical management system.	
Study and examination requirements and forms of examination	• In-class exercises • Written assignment 1, 2, 3, 4 and 5 • Mid-term examination • Project based assignment and presentation • Final examination	
Media employed	LCD, whiteboard, websites (myITS Classroom), zoom.
