MODULE HANDBOOK

INTRODUCTION TO ELECTRICAL TECHNOLOGY

Module name	Introduction to Electrical Technology	
Module level	Undergraduate	
Code	EE234101	
Course (if applicable)	Introduction to Electrical Technology	
Semester	First Semester (Gasal)	
Person responsible for the module	Prof. Dr. Ir. Mohammad Nuh, DEA	
Lecturer	Dr. Margo Pujiantara Tasripan MT Dr. M. Rameli Prof. Dr. Gamantyo Hendrantoro Prof. M. Nuh Prof. Yoyon Kusnendar	
Language	Bahasa Indonesia and English	
Relation to curriculum	Undergraduate degree program, mandatory , 1 st semester.	
Type of teaching, contact hours	Lectures, <60 students	
Workload	1. Lectures : 2 x 50 = 100 minutes per week. 2. Exercises and Assignments : 2 x 60 = 120 minutes per week. 3. Private learning : 2 x 60 = 120 minutes per week.	
Credit points	2 credit points (sks)	
Requirements according to the examination regulations	A student must have attended at least 75% of the lectures to sit in the exams.	
Mandatory prerequisites	-	
Learning outcomes and their corresponding PLOs	Course Learning Outcome (CLO) after completing this module, CLO 1: Students understand the introductory material of power system engineering. CLO 2: Students understand the introductory material of control system engineering.	PLO-11 PLO-11

	CLO 3: Students understand the introductory material of electronics. CLO 4: Students understand the introductory material of telecommunication engineering. CLO 5: Students understand the introductory material of computer engineering CLO 6: Students understand the introductory material of biomedical engineering. CLO 7: Students understand the history and timeline of electrical technology. CLO 8: Students understand the basic electrical and magnetical phenomenon. CLO 9: Students understand the role of physics and mathematics in electrical technology. CLO 10: Students understand the impact of electrical technology on the development of civilization. CLO 11: Students understand the importance of creativity for electrical technology undergraduates in the face of technological developments. CLO 12: Students understand the importance of integrity for electrical technology undergraduates.	PLO-11 PLO-11 PLO-11 PLO-03 PLO-11 PLO-03 PLO-03 PLO-03 PLO-03
Content	Introduction to Electrical Technology course studies about fundamentals of electrical technology which include the introductory material of power system engineering, control system engineering, electronics, telecommunication engineering, computer engineering, and biomedical engineering also include the history and impact of electrical technology to civilization, role of physics and mathematics in electrical technology, and the importance of creativity and integrity for electrical technology undergraduates.	
Study and examination requirements and forms of examination	● In-class exercises ● Assignment 1, 2, 3 ● Mid-term examination ● Final examination	
Media employed	LCD, whiteboard, websites (myITS Classroom), zoom.	
Reading list	Main : 1. Anthonie Meijers, Philosophy of Technology and Engineering 2. Sciences, Elsevier, 2009. Clive Maxfield dkk, Electrical Engineering, Elsevier, 2008. 3. Don Johnson, J. D. Wise, Fundamentals of Electrical Engineering, University Press of Florida, 2009.

Diskripsi Singkat MK Short Description of Course	Mata kuliah Pengantar Teknologi Elektro membahas dasar-dasar teknologi elektro yang meliputi materi pengantar ke teknik sistem tenaga, teknik sistem pengaturan, elektronika, teknik telekomunikasi, teknik komputer, dan teknik biomedik serta sejarah dan dampak teknologi elektro bagi peradaban, peran fisika dan matematika dalam teknologi elektro, dan pentingnya kreativitas dan integritas bagi sarjana teknologi elektro. <i>Introduction to Electrical Technology course studies about fundamentals of electrical technology which include the introductory material of power system engineering, control system engineering, electronics, telecommunication engineering, computer engineering, and biomedical engineering also include the history and impact of electrical technology to civilization, role of physics and mathematics in electrical technology, and the importance of creativity and integrity for electrical technology undergraduates.</i>													
Bahan Kajian: Materi pembelajaran Course Materials:	1. Pengantar teknik sistem tenaga / <i>Introduction of power system engineering</i> 2. Pengantar teknik sistem pengaturan / <i>Introduction of control system engineering</i> 3. Pengantar elektronika / <i>Introduction of electronics</i> 4. Pengantar teknik telekomunikasi / <i>Introduction of telecommunication engineering</i> 5. Pengantar teknik komputer / <i>Introduction of computer engineering</i> 6. Pengantar teknik biomedika / <i>Introduction of biomedical engineering</i> 7. Sejarah/timeline teknologi elektro (Volta, Ohm, Kelvin, Faraday, Biot Savart, Laplace, Ampere, Maxwell, dan seterusnya) / <i>History and the timeline of electrical technology (Volta, Ohm, Kelvin, Faraday, Bio-Savart, Laplace, Ampere, Maxwell, etc.)</i> 8. Dasar fenomena listrik dan magnet (elektron, arus listrik, listrik magnet, baterai, dst) / <i>Basic of electrical and magnetical phenomenon (electrons, electrical current, electrical magnet, battery, etc.)</i> 9. Fisika dan matematika dalam teknologi elektro (fenomena fisika dari elektro, pemodelan matematika untuk sinyal dan sistem dalam teknologi elektro) / <i>Physics and mathematics in electrical technology (physics phenomenon from electrical, mathematical modelling for signal and system in electrical technology)</i> 10. Dampak teknologi elektro terhadap perkembangan peradaban (transportasi, dsb) / <i>Impact of electrical technology to civilization development (transportation, etc.)</i> 11. Kreativitas bagi sarjana teknologi elektro dalam menghadapi perkembangan teknologi (memiliki penguasaan dasar yang kuat) / <i>Creativity for</i>													

	<i>electrical technology undergraduates in the face of technological development (have a hard basic mastery)</i> 12. Kode etik dan integritas bagi sarjana teknologi elektro (pengakuan terhadap hasil karya orang lain, upaya mandiri dalam menyelesaikan permasalahan, dst) / <i>Ethics code and integrity for electrical technology undergraduates (recognition of the work of others, be independent in solving problems, etc.)</i>
